Sustainability

The future is efficient, and we're helping power the development of safe and sustainable technologies of tomorrow—today. Our **products are designed to create positive environmental and social impacts** by helping our customers address global challenges related to carbon emissions, energy efficiency, and clean, renewable energy.

Our sensor and power semiconductors address critical global challenges related to energy efficiency, vehicle emissions and clean and renewable energy.

- Our Current Sensor Integrated Circuits (ICs) provide a low loss means to measure current in motion control and electrification systems, greatly reducing the power consumption in these applications.
- Our Brushless DC Motor Driver ICs facilitate the transition from inefficient brushed and single phase motors to electrically efficient 3-phase motors - resulting in significant power consumption savings in data centers and cars.
- Our Engine and Transmission Sensor ICs greatly enhance the efficiency of internal combustion vehicles, resulting in reduced CO2 emissions and lower gasoline consumption.
- Our highly integrated and embedded solutions, like our Current Sensor ICs, Angle Sensor ICs and Brushless DC Fan Driver ICs, typically enable elimination of additional components in the end-application, reducing electronic waste.

Making an Impact: Product Highlights

Our QuietMotion™ fan driver ICs improve the energy efficiency of data center cooling systems globally. We estimate an annual energy savings potential of ~6 billion kilowatt-hours - the equivalent of a small country going dark for a whole year.

Our linear and angle position sensor ICs enable significant safety and efficiency advancements in electric power steering (EPS) systems. Over the last decade, EPS systems equipped with Allegro's position sensors have cumulatively saved an estimated 7 million metric tons of CO2 emissions.

Our ultra-low resistance flip-chip current sensor ICs are up to 80% more energy efficient compared to competing shunt solutions in industrial automation and robotics applications. We estimate that these sensor ICs have saved more than 400 million kilowatt-hours of electricity usage in industrial applications alone - enough to power the San Francisco Bay Area's public transportation for a year.

At Allegro, we're taking a **sustainability-first approach to semiconductor design and manufacture**, integrating sustainable practices throughout our supply chain and operations with a focus on using resources responsibly and maintaining healthy, vibrant communities. We maintain a commitment to social responsibility in our supply chain and disclosure of the environmental impact of our business operations.

Additional information on the environmental policies and the code of conducts listed below can be found on the "Sustainability" section of our website, [allegromicro.com/en/about-allegro/corporate-responsibility/sustainability](https://www.allegromicro.com/en/about-allegro/corporate-responsibility/sustainability).

 - Water Policy
 - Supplier Code of Conduct
 - Vendor Code of Conduct
 - UK Modern Slavery Act
 - Quality Policy
- We are a member of the Responsible Business Alliance, the world's largest industry coalition dedicated to corporate social responsibility in global supply chains.
- We disclose the environmental impact of our business operations via the Carbon Disclosure Project (CDP), reporting on Climate Change and Water Security. In the 2021 reporting cycle, we were recognized for our awareness of climate change issues in line with regional averages and coordinated action on water conservation in line with regional and sector averages.
- We strive to adhere to international standards and regulations regarding manufacturing and business procedures and product composition, including IATF16949:2016 Automotive Quality Management System and ISO14001 Environmental Management System.

- We work to install energy-conscious and eco-friendly infrastructure where we can in our facilities, like LED lighting and low-flow water systems, as well as EV charging stations. New employees receive eco-mugs to use in place of single-use cups, which have been removed from our U.S. coffee stations.
- We constantly look for ways to conserve energy consumption and environmental waste and encourage the use of renewable energy. The Company's largest facility, Allegro MicroSystems Philippines Inc. (AMPI), has undergone several initiatives to minimize our environmental impact:
 - Successfully completed several energy saving initiatives that help save approximately 1 million kWh of electricity annually;
 - In 2022, AMPI plans to install 60 kW of solar panels in two phases, with phase one already completed. The solar project is expected to reduce AMPI's carbon emissions by approximately 62.3 MT CO₂e annually;
 - Effectively recycled approximately 1.25 million gallons of water from its saw operation and saved a total 2.9 MT of paper and plastic carriers annually through its Paperless Receipt Traveler Project; and
 - Launched Site Green Transformation Projects and plans to grow approximately 3,000 trees, shrubs, and plants.

We invest in our employee innovators. Our global team collaborates to solve some of the biggest problems facing the world today. That is why we **foster a culture of diversity, development and engagement.**

We believe in innovation with purpose, and our success is a result of the dedication, talent, and commitment of our employees. We are an equal opportunity employer, and we are committed to fostering diversity, inclusivity, and global collaboration to fuel our innovation. The diversity of our people, together with their unique ideas and perspectives, enables us to work together toward Allegro's vision and mission.

Three of our core values: **collaborate globally**, **innovate with purpose**, and **empower with trust**, are key to creating a culture where everyone's ideas are valued. We have developed a more holistic diversity, equity, and inclusion (DEI) strategy, including executive sponsorship, the launch of a DEI Council, formation of affinity groups, an increased focus on diversity recruiting, education and targeted training. We know that our Company, business goals and our communities are best served when our employees are drawn from a diversity of backgrounds. As such, we are highly focused on increasing our efforts to recruit new members of our highly talented team from underrepresented communities.

Additionally:

- We invest in the ongoing development of our employees and provide education assistance to help mitigate the costs of certification and degree programs, as well as assistance toward the repayment of student debt, an attractive and innovative benefit.
- We curate a centralized and broadly used learning management system that houses our training courses, certifications, and compliance modules.
- Our talent management system and processes promote career-focused discussions, development and succession planning.
- We're expanding our learning and professional development strategy to develop a culture of continuous learning, with a focus on leadership and management development, upskilling of employees and employee coaching and mentoring.

- We have an employee-driven, global wellness team that delivers regular engaging content, team challenges, perks like Fitbit discounts and other activities to promote health and well-being of our employees and their families.
- We have launched a Global Employee and Family Assistance Program to better support employees and their families' mental health and overall well-being.
- We have strong participation in our periodic global employee surveys, and recently partnered with an organization to formalize data collection focused on employee engagement.
- We also offer peer-to-peer recognition programs, like our High-Five or the Allegro Values award program, where employees can recognize each other's achievements and contributions. Our annual bonus program is designed to pay for performance to recognize outstanding employee contributions.
- We have established select career ladders that support career growth and development through professional or management tracks.

Making an Impact: Program Highlights

We've paid over \$100K in tuition costs for employees in the last 12 months.

Since our student debt assistance program debuted in 2018, we've paid more than \$460K toward employees' student debt, saving employees over \$542K in principal and interest.

In the last 12 months, almost 90% of our employees participated in our robust and ever-expanding learning management system, with over 100K course completions.

We've awarded almost \$100K in scholarship funding for the education of our U.S. employees' children.

Globally we have matched more than \$100k in charitable donations in the last 12 months.

Our U.S. Dollars for Doers program has provided more than \$19K in support of organizations where employees have volunteered their personal time.

A recent Cultural Values Assessment showed improvement in the measure of a healthy culture and scored above the industry benchmark. Actions were taken to further increase the score.

Our teams recognized and celebrated the achievements of their peers 461 times during the fiscal year using our innovative High-Five program. One-third of those were a result of employees recognizing each other across different countries - a testament to our global collaboration.

Communities

We are committed to being a **responsible corporate citizen** in every community in which we operate, and continue to maintain and improve processes designed to reduce the possibility of complicity in human rights violations

We strive to have a positive impact in our communities and encourage community engagement by our employees. We are proud to support our employees' causes and match contributions by our employees. Some of our community-focused programs include:

- A generous matching gift program for employee donations to qualified nonprofit organizations;
- A volunteer-matching program, "Dollars for Doers" that matches employees' volunteer hours with in-kind monetary donations to qualified nonprofit organizations;
- Company volunteer days and community service projects, including community and coastal clean-ups and tree planting. Our corporate sponsorship programming, targeted at STEM education programs and community related programs, such as FIRST Robotics, the Red Cross and local animal shelters;
- Being there when it counts. We uncap our charitable donation matching policies for disaster relief donations globally, most recently in support of Ukraine refugees. We are proud to have donated vital PPE to hospitals and first responders around the world as well as 2,000 vaccine doses to cities in the Philippines during the COVID-19 pandemic.

Governance

Our management and Board are committed to furthering our Corporate Social Responsibility and ESG programs and are highly engaged in the work to maintain alignment of our long-term strategy and operations with these core values and goals. An ESG Steering Committee was formed in FY22 to lead these efforts. The Committee has executive and management sponsorship from the Chief Executive Officer, Chief Financial Officer, General Counsel and Chief Information Officer, and consists of a senior management team that includes our Chief Human Resources Officer, Senior Corporate Counsel, Senior Director of Investor Relations & Marketing and Communications, Director of U.S. Facilities & Corporate Process Engineering, Vice President of Supply Chain, Vice President of Global Assembly, Test Operations & Manufacturing, and Senior Director of Quality & Reliability, alongside our newly appointed ESG Manager.

On a quarterly basis, senior management reports on key ESG activities to the Board's Nominating Corporate and Governance Committee. The Nominating Committee provides oversight on ESG initiatives and reviews regular updates on our strategy. We intend to continually monitor our activities and achievements in these areas and report on them on our Corporate Responsibility webpage located at allegromicro.com/en/about-allegro/corporate-responsibility. We encourage our employees, community members and stockholders to check this webpage for updates as we continuously improve our efforts and realize important results in these critical areas.

Your attendance at the Annual Meeting by itself will not revoke your proxy unless you give written notice of revocation to the Secretary of the Company before your proxy is voted or you vote online at the Annual Meeting.

If your shares are held in street name, you may change or revoke your voting instructions by following the specific directions provided to you by your bank or broker, or you may vote online at the Annual Meeting.

9. Who will count the votes? Is my vote confidential?

A representative of Computershare will act as Inspector of Elections, supervise the voting, decide the validity of proxies, and receive and tabulate proxies. As a matter of policy, we keep confidential all shareholder meeting proxies, ballots and voting tabulations that identify individual shareholders. In addition, the vote of any shareholder is not disclosed except as may be necessary to meet legal requirements.

10. What if I do not specify how my shares are to be voted?

If you submit a proxy but do not indicate any voting instructions, the persons named as proxies will vote in accordance with the recommendations of the Board. See "Recommendations of the Board" above. For beneficial holders, proxies submitted without voting instructions could result in broker non-votes for certain matters. See "What are broker non-votes and do they count for determining a quorum?" below for additional information.

11. Will any other business be conducted at the Annual Meeting?

We do not know of any other business that will be presented at the Annual Meeting. However, if any other matter properly comes before the shareholders for a vote at the Annual Meeting, the proxy holders named on the Company's proxy card will have the discretionary authority to vote your shares in accordance with their best judgment.

12. Why hold a virtual meeting instead of a physical meeting?

Due to the ongoing public health impact of the COVID-19 pandemic and to support the health and well-being of our stakeholders and their families and communities, and in order to make the meeting accessible to all shareholders, our Board has decided to hold a virtual Annual Meeting. With this live, online webcast format, we believe we will provide our shareholders with substantially the same opportunities to participate as you would have at an in-person meeting.

13. What if I have trouble accessing the Annual Meeting virtually?

The virtual meeting platform is fully supported across browsers (MS Edge, Firefox, Chrome and Safari) and devices (desktops, laptops, tablets and cell phones) running the most up-to-date version of applicable software and plugins. Please note, Internet Explorer is not a supported browser. Participants should ensure that they have a strong WiFi connection at the location where they intend to participate in the meeting. We encourage you to access the Annual Meeting prior to the start time. If you need further assistance accessing the meeting, you may call 1-888-724-2416.

14. How many votes are required for the approval of the proposals to be voted upon and how will abstentions and broker non-votes be treated?

Proposal	Votes required	Effect of Votes Withheld / Abstentions and Broker Non-Votes
Proposal 1: Election of Directors	A plurality of the votes properly cast. This means that the four nominees receiving the highest number of affirmative "FOR" votes will be elected as Class II Directors.	Votes withheld and broker non-votes will have no effect on the outcome because they are not considered votes cast.
Proposal 2: Ratification of Appointment of Independent Registered Public Accounting Firm	The affirmative vote of the holders of a majority in voting power of the votes properly cast.	Abstentions and broker non-votes, if any, will have no effect on the outcome because they are not considered votes cast. We do not expect any broker non-votes on this proposal.
Proposal 3: Advisory Vote on the Frequency of Future Advisory Votes on Executive Compensation	The affirmative vote of the holders of a majority in voting power of the votes properly cast. If no option receives a majority, the option that receives the most votes will be considered the option selected by shareholders.	Abstentions and broker non-votes will have no effect on the outcome because they are not considered votes cast.

15. What is a "vote withheld" and an "abstention" and how will votes withheld and abstentions be treated?

A "vote withheld," in the case of the proposal regarding the election of directors, or an "abstention," in the case of the proposal regarding the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm and the approval, on an advisory basis, of the preferred frequency of future advisory votes on executive compensation represent a shareholder's affirmative choice to decline to vote on such proposal. Votes withheld and abstentions are counted as present and entitled to vote for purposes of determining a quorum. Votes withheld have no effect on the election of directors. Abstentions have no effect on the ratification of the appointment of PricewaterhouseCoopers LLP or the approval, on an advisory basis, of the preferred frequency of future advisory votes on executive compensation.

16. What are broker non-votes and do they count for determining a quorum?

Generally, broker non-votes occur when shares held by a broker in "street name" for a beneficial owner are not voted with respect to a particular proposal because the broker: (1) has not received voting instructions from the beneficial owner; and (2) lacks discretionary voting power to vote those shares. A broker is entitled to vote shares held for a beneficial owner on routine matters, such as the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm, without instructions from the beneficial owner of those shares. On the other hand, absent instructions from the beneficial owner of such shares, a broker is not entitled to vote shares held for a beneficial owner on non-routine matters, such as the election of directors and the approval, on an advisory basis, of the preferred frequency of future advisory votes on executive compensation. Broker non-votes do count for purposes of determining whether a quorum is present.

17. Where can I find the voting results of the Annual Meeting?

We plan to announce preliminary voting results at the Annual Meeting, and we will report the final results in a Current Report on Form 8-K, which we intend to file with the SEC after the Annual Meeting.

PROPOSALS TO BE VOTED ON

Proposal 1: Election of Directors

We currently have 11 directors on our Board. At the Annual Meeting, four Class II Directors, Yoshihiro (Zen) Suzuki, David J. Aldrich, Kojiro (Koji) Hatano and Paul Carl (Chip) Schorr IV are to be elected to hold office until the 2025 Annual Meeting of Shareholders and until each such director's respective successor is elected and qualified or until each such director's earlier death, resignation or removal.

The proposal regarding the election of directors requires the approval of a plurality of the votes properly cast. This means that the four nominees receiving the highest number of affirmative "FOR" votes will be elected as Class II Directors. Votes withheld and broker non-votes are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote on this proposal.

As set forth in our Amended and Restated Certificate of Incorporation, the Board is currently divided into three classes with staggered, three-year terms. At each annual meeting of shareholders, the successors to directors with expiring terms will be elected to serve from the time of election and qualification until the third annual meeting following election. The current class structure is as follows: Class II, whose term currently expires at the Annual Meeting and whose subsequent term will expire at the 2025 Annual Meeting of Shareholders; Class III, whose term will expire at the 2023 Annual Meeting of Shareholders; and Class I, whose term will expire at the 2024 Annual Meeting of Shareholders. The current Class II Directors are Yoshihiro (Zen) Suzuki, David J. Aldrich, Kojiro (Koji) Hatano and Paul Carl (Chip) Schorr IV; the current Class III Directors are Andrew G. Dunn, Susan D. Lynch and Richard R. Lury; and the current Class I Directors are Katsumi Kawashima, Reza Kazerounian, Joseph R. Martin and Vineet Nargolwala. In preparation for the initial public offering of our Common Stock in 2020 (the "IPO"), we entered into a stockholders agreement with Sanken Electric Co., Ltd. ("Sanken") and OEP SKNA, L.P. (the "OEP Investor"), a fund affiliated with One Equity Partners ("OEP"). The stockholders agreement was amended and restated by the parties as of June 16, 2022 (as amended and restated, the "Stockholders Agreement"). Pursuant to the rights provided in the Stockholders Agreement, Messrs. Hatano, Kawashima and Lury were each designated by Sanken (each as a Sanken Director, as defined below); Messrs. Dunn and Schorr were each designated by the OEP Investor (each as an OEP Director, as defined below); Messrs. Aldrich and Martin and Ms. Lynch were each designated by the OEP Investor (each as an OEP Independent Director, as defined below); Mr. Kazerounian was designated by Sanken and the OEP Investor jointly (as an OEP-Sanken Joint Director, as defined below); and Mr. Suzuki was designated by the Board's Nominating and Corporate Governance Committee (as the Nom/Gov Director, as defined below). As a result of the Stockholders Agreement and the aggregate voting power of the parties to the agreement, we expect that Sanken and the OEP Investor, acting in conjunction, will control the election of directors to the Board. For more information, including the definitions of Sanken Director, OEP Director, OEP Independent Director, OEP-Sanken Joint Director and Nom/Gov Director, see "Corporate Governance—Stockholders Agreement."

The division of our Board into three classes with staggered three-year terms may delay or prevent a change of our management or a change in control of our Company. Our directors may be removed only for cause by the affirmative vote of the holders of at least two-thirds of the voting power of all of the then outstanding shares of voting stock of the Company entitled to vote at an election of directors; provided, however, that the directors who were originally designated for nomination in accordance with the Stockholders Agreement may be removed with or without cause, but only in accordance with, and to the extent provided by, the terms of the Stockholders Agreement.

If you submit a proxy but do not indicate any voting instructions, the persons named as proxies will vote the shares of Common Stock represented thereby for the election of each of Messrs. Suzuki, Aldrich, Hatano and Schorr as a Class II Director. In the event that any of Messrs. Suzuki, Aldrich, Hatano or Schorr should become unable to serve, or for good cause will not serve, as a director, it is intended that votes will be cast for a substitute nominee designated by the Board, or the Board may elect to reduce its size. The Board has no reason to believe that any of Messrs. Suzuki, Aldrich, Hatano or Schorr will be unable to serve if elected. Each of Messrs. Suzuki, Aldrich, Hatano and Schorr has consented to being named in this proxy statement and to serve if elected.

Vote required

The proposal regarding the election of directors requires the approval of a plurality of the votes properly cast. This means that the four nominees receiving the highest number of affirmative "FOR" votes will be elected as Class II Directors.

Votes withheld and broker non-votes are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote on this proposal.

Proposal 2: Ratification of Appointment of Independent Registered Public Accounting Firm

Our Audit Committee has appointed PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending March 31, 2023. Our Board has directed that this appointment be submitted to our shareholders for ratification at the Annual Meeting. Although ratification of our appointment of PricewaterhouseCoopers LLP is not required, we value the opinions of our shareholders and believe that shareholder ratification of our appointment is a good corporate governance practice.

PricewaterhouseCoopers LLP has been engaged as our independent registered public accounting firm since June 7, 2022. Prior to that, Grant Thornton LLP served as our independent registered public accounting firm, including for the fiscal year ended March 25, 2022. Neither accounting firm nor any of either firm's members has any direct or indirect financial interest in or any connection with us in any capacity other than as our auditors, providing audit and non-audit related services. We expect representatives of PricewaterhouseCoopers LLP to be present at the Annual Meeting and that representatives from Grant Thornton LLP will not attend. Representatives of PricewaterhouseCoopers LLP will have an opportunity to make a statement if they so desire and are expected to be available to respond to appropriate questions from shareholders.

In the event that the appointment of PricewaterhouseCoopers LLP is not ratified by the shareholders, the Audit Committee will consider whether it is appropriate to select another independent registered public accounting firm, but it will not be obligated to do so. Even if the appointment of PricewaterhouseCoopers LLP is ratified, the Audit Committee retains the discretion to appoint a different independent registered public accounting firm at any time if it determines that such a change is in the best interest of the Company.

Changes in Certifying Accountant

On June 7, 2022, our Audit Committee dismissed Grant Thornton LLP as the Company's independent registered public accounting firm. The reports of Grant Thornton LLP on the Company's consolidated financial statements and internal control over financial reporting, which were included in the Company's Annual Report on Form 10-K for the fiscal year ended March 25, 2022, and the report on the Company's consolidated financial statements, which was included in the Company's Annual Report on Form 10-K for the fiscal year ended March 26, 2021, did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles.

During the Company's fiscal years ended March 25, 2022 and March 26, 2021, and the subsequent interim period through June 7, 2022, there were: (i) no disagreements within the meaning of Item 304(a)(1)(iv) of Regulation S-K between the Company and Grant Thornton LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to Grant Thornton LLP's satisfaction, would have caused Grant Thornton LLP to make reference thereto in Grant Thornton LLP's reports; and (ii) no "reportable events" within the meaning of Item 304(a)(1)(v) of Regulation S-K.

We previously provided Grant Thornton LLP with a copy of the above disclosures, as included in our Current Report on Form 8-K filed with the SEC on June 10, 2022, and requested that Grant Thornton LLP furnish us with a letter addressed to the SEC stating whether Grant Thornton LLP agreed with the statements made by us in response to Item 304(a) of Regulation S-K and, if not, stating the respects in which it does not agree. A copy of Grant Thornton LLP's letter, dated June 9, 2022, is attached as Exhibit 16.1 to that Current Report on Form 8-K.

On June 7, 2022, our Audit Committee approved the engagement of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending March 31, 2023. During the Company's fiscal years ended March 25, 2022 and March 26, 2021, and the subsequent interim period through June 7, 2022, neither the Company nor anyone on its behalf has consulted with PricewaterhouseCoopers LLP regarding: (i) the application of accounting principles to a specific transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, and neither a written report nor oral advice was provided to the Company that PricewaterhouseCoopers LLP concluded was an important factor considered by the Company in reaching a decision as to any accounting, auditing, or financial reporting issue; (ii) any matter that was the subject of a disagreement within the meaning of Item 304(a)(1)(iv) of Regulation S-K; or (iii) any "reportable event" within the meaning of Item 304(a)(1)(v) of Regulation S-K.

PROPOSAL TWO: RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Vote Required

This proposal requires the affirmative vote of the holders of a majority in voting power of the votes properly cast. Abstentions are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote on this proposal. Because brokers have discretionary authority to vote on the ratification of the appointment of PricewaterhouseCoopers LLP, we do not expect any broker non-votes in connection with this proposal.

RECOMMENDATION OF THE BOARD OF DIRECTORS

The Board unanimously recommends a vote FOR the Ratification of the Appointment of PricewaterhouseCoopers LLP as our Independent Registered Public Accounting Firm for the fiscal year ending March 31, 2023.

PROPOSAL 3: ADVISORY VOTE ON THE FREQUENCY OF FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION

Proposal 3: Advisory Vote on the Frequency of Future Advisory Votes on Executive Compensation

At future annual meetings of shareholders beginning in 2023, and in accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”), we will be required to provide shareholders the opportunity to vote to approve, on a non-binding advisory basis, the compensation of our named executive officers identified in our proxy statement, which is commonly known as “Say-on-Pay.” In this Proposal 3, in accordance with the Dodd-Frank Act, we are providing our shareholders with a non-binding advisory vote on whether future Say-on-Pay votes should occur every year, every two years or every three years.

After careful consideration, the Board recommends that shareholders vote for “EVERY YEAR” as the frequency of future Say-on-Pay votes. The Board has determined that holding future Say-on-Pay votes annually is most appropriate for the Company and recommends that shareholders vote for this frequency. Annual advisory votes on executive compensation allow our shareholders to provide us with their direct input on our compensation philosophy, policies and practices, as disclosed in the proxy statement each year, and are consistent with our policy of seeking input from, and engaging in discussions with, our shareholders on corporate governance matters and our executive compensation philosophy, policies and practices.

Shareholders may indicate their preferred voting frequency by choosing the option of “every year,” “every two years,” or “every three years,” or shareholders may abstain from voting. Shareholders are not voting to approve or disapprove the Board’s recommendation, and should instead select their preferred voting frequency. This advisory vote on the frequency of future Say-on-Pay votes is not binding on the Company or the Board.

Although the vote is advisory and non-binding, the Board will carefully consider the outcome of the vote. Notwithstanding the outcome of the vote or the Board’s recommendation, the Board may decide to conduct future Say-on-Pay votes on a different frequency and may vary its practice based upon any relevant factors, including discussions with shareholders or material changes to our executive compensation programs.

Vote Required

This proposal requires the affirmative vote of the holders of a majority in voting power of the votes properly cast. Abstentions and broker non-votes are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote on this proposal. If no option receives a majority for this proposal, the option that receives the most votes will be considered the option selected by shareholders.

RECOMMENDATION OF THE BOARD OF DIRECTORS

The Board unanimously recommends a vote for “EVERY YEAR” as the recommended frequency of future advisory votes on executive compensation.

CORPORATE GOVERNANCE

General

Our Board has adopted Corporate Governance Guidelines, a Code of Business Conduct and Ethics, and charters for our Nominating and Corporate Governance Committee, Audit Committee, Compensation Committee and Research & Development and Strategy Committee to assist the Board in the exercise of its responsibilities and to serve as a framework for the effective governance of the Company. You can access our current committee charters, our Corporate Governance Guidelines, and our Code of Business Conduct and Ethics in the “Governance” section under “Documents & Charters” in the investor relations section of our corporate website located at investors.allegromicro.com, or by writing to our Secretary at our offices at 955 Perimeter Road, Manchester, New Hampshire, 03103.

Board Composition

Our business and affairs are managed under the direction of our Board. Our Board currently consists of 11 members: Vineet Nargolwala, Yoshihiro (Zen) Suzuki, David J. Aldrich, Andrew G. Dunn, Kojiro (Koji) Hatano, Katsumi Kawashima, Reza Kazerounian, Richard R. Lury, Susan D. Lynch, Joseph R. Martin and Paul Carl (Chip) Schorr IV. Our Board is divided into three classes, with the directors in each class serving for a three-year term, and one class being elected each year by our shareholders.

When considering whether directors have the experience, qualifications, attributes or skills, taken as a whole, to enable our Board to satisfy its oversight responsibilities effectively in light of our business and structure, our Board focuses primarily on each person’s background and experience, as reflected in the information discussed in each director’s individual biography set forth in Proposal One above. We believe that our directors provide an appropriate mix of experience and skills relevant to the size and nature of our business.

Stockholders Agreement

In connection with our IPO, we entered into a stockholders agreement with certain stockholders of the Company, including Sanken and the OEP Investor. The stockholders agreement was amended and restated by the parties as of June 16, 2022 (the amended and restated agreement is referred to in this proxy statement as the “Stockholders Agreement”). Pursuant to the Stockholders Agreement, the parties agreed that:

- the size of the Board is fixed at 11 directors;
- for as long as Sanken, directly or indirectly, beneficially owns, in the aggregate, at least five percent (5%) of our Common Stock, Sanken will have the right to designate that number of individuals for nomination in any election of directors which, assuming all such individuals are successfully elected as directors, when taken together with any incumbent directors that have been nominated by Sanken not then standing for election, would result in there being three such directors designated by Sanken on our Board (provided, that any individuals designated by Sanken as described in this clause that are different from the individuals designated by Sanken in the Stockholders Agreement (Messrs. Kawashima, Hatano, and Lury) shall require the prior written approval of the OEP Investor (not to be unreasonably withheld)) (the individuals described in this clause being “Sanken Directors”);
- for as long as the OEP Investor, directly or indirectly, beneficially owns, in the aggregate, at least five percent (5%) of our Common Stock, the OEP Investor will have the right to designate (i) that number of individuals for nomination in any election of directors which, assuming all such individuals are successfully elected as directors, when taken together with any incumbent directors that have been nominated by the OEP Investor not then standing for election, would result in there being two such directors designated by the OEP Investor on our Board (provided, that any individuals designated by the OEP Investor as described in this sub-clause (i) that are different from the individuals designated by the OEP Investor in the Stockholders Agreement (Messrs. Dunn and Schorr) shall require the prior written approval of Sanken (not to be unreasonably withheld)) (the individuals described in this sub-clause (i) being “OEP Directors”), and (ii) that number of individuals who satisfy the independence requirements specified in the Stockholders Agreement for nomination in any election of directors, which, assuming all such individuals are successfully elected as directors, when taken together with any incumbent directors who satisfy such independence requirements that have been nominated by the OEP Investor not then standing for election, would result in there being three such directors that satisfy the independence requirements designated by the OEP Investor on our Board (provided, that any individuals designated

by the OEP Investor as described in this sub-clause (ii) that are different from the individuals designated by the OEP Investor in the Stockholders Agreement (Messrs. Aldrich and Martin, and Ms. Lynch) shall require the prior written approval of Sanken (not to be unreasonably withheld)) (the individuals described in this sub-clause (ii) being “OEP Independent Directors”);

- for as long as both Sanken and the OEP Investor each beneficially owns, directly or indirectly, in the aggregate, at least five percent (5%) of our Common Stock, Sanken and the OEP Investor will have the right to jointly designate that number of individuals for nomination in any election of directors which, assuming all such individuals are successfully elected as directors, when taken together with any incumbent directors that have been nominated jointly by Sanken and the OEP Investor not then standing for election, would result in there being one such director jointly designated by Sanken and the OEP Investor on our Board (provided, that any individual jointly designated as described in this clause that are different from the individual designated by Sanken and the OEP Investor in the Stockholders Agreement (Mr. Kazerounian) shall require the prior written approval of both Sanken and the OEP Investor (the individual described in this clause being the “OEP-Sanken Joint Director”));
- the Board’s Nominating and Corporate Governance Committee will have the right to designate that number of individuals for nomination in any election of directors which, assuming all such individuals are successfully elected as directors, when taken together with any incumbent directors that have been nominated by Nominating and Corporate Governance Committee not then standing for election, would result in there being one such director designated by the Nominating and Corporate Governance Committee (the individual described in this clause being the “Nom/Gov Director”);
- Mr. Suzuki is designated as the Nom/Gov Director and shall serve as the Chairperson of the Board until the 2025 annual meeting of shareholders, after which the Chairperson of the Board shall be appointed by the Board upon the recommendation of the Nominating and Corporate Governance Committee; and
- unless otherwise agreed, our then-current Chief Executive Officer will be designated for nomination by the Board in any applicable election.

Sanken and the OEP Investor generally have the right to remove and replace directors that they have respectively designated, subject to certain consent rights in favor of the other holder. Each of Sanken and the OEP Investor will also agree to vote, or cause to be voted, all of their outstanding shares of our Common Stock at any annual or special meeting of shareholders in which directors are elected, and to otherwise take all necessary action (as defined in the Stockholders Agreement) so as to cause the election or appointment of the designees described above. Additionally, pursuant to the Stockholders Agreement, the Company has agreed to take all commercially reasonable actions to cause (1) our Board to be comprised of the number of directors described above; (2) the individuals designated in accordance with the terms of the Stockholders Agreement to be included in the slate of nominees to be elected at the next annual or special meeting of our shareholders at which directors are to be elected, and at each annual meeting of our shareholders thereafter at which a director’s term expires; and (3) the individuals designated in accordance with the terms of the Stockholders Agreement to fill the applicable vacancies on our Board. The Stockholders Agreement allows for our Board to reject the nomination, appointment or election of a particular director if such nomination, appointment or election would constitute a breach of the Board’s fiduciary duties to our shareholders or does not otherwise comply with any requirements of our Amended and Restated Certificate of Incorporation or our Amended and Restated Bylaws.

In addition, the Stockholders Agreement provides each of Sanken and the OEP Investor with a consent right (subject to certain ownership minimums) over our entry into any transaction with Sanken, the OEP Investor, any of their respective affiliates or any of our affiliates. The Stockholders Agreement also includes a covenant between Sanken and the OEP Investor that gives the OEP Investor the right to require Sanken to vote all of its shares in favor of any matter that our Board has determined is advisable and in the best interests of the shareholders and has recommended that the shareholders adopt. The Stockholders Agreement further provides that neither Sanken nor the OEP Investor will directly sell a portion of its Common Stock representing greater than 10% of our outstanding shares of Common Stock to a material competitor of the Company or of the other shareholder in a privately negotiated sale solely between such selling shareholder and such competitor, without the prior written consent of the OEP Investor (in the case of a sale by Sanken) or Sanken (in the case of a sale by the OEP Investor).

The Stockholders Agreement will terminate upon the earlier to occur of (a) each of (i) Sanken and its affiliates and (ii) the OEP Investor and its affiliates ceasing to own any shares of our Common Stock, and (b) the unanimous written consent of the parties thereto. In addition, the rights and obligations of Sanken and the OEP Investor under the Stockholders Agreement will terminate upon Sanken and its affiliates (in the case of Sanken) or the OEP Investor and its affiliates (in the case of the OEP

Investor) ceasing to own any shares of our Common Stock. Notwithstanding the foregoing, if the OEP Investor ceases to be entitled to any right or benefit under the Stockholders Agreement because the OEP Investor and its affiliates cease to beneficially own, directly or indirectly, either (A) at least five percent (5%) of the issued and outstanding shares of Common Stock, or (B) any shares of Common Stock, then the Stockholders Agreement will not terminate, and instead, any such right or benefit will automatically become a right or benefit of the Nominating and Corporate Governance Committee for so long as the Stockholders Agreement remains in effect, and the Nominating and Corporate Governance Committee shall have the right to enforce any such rights or benefits mutatis mutandis as though it were the OEP Investor under any applicable provision (but without regard to any share ownership requirements set forth therein), leaving all of Sanken's and the Company's obligations in respect of any such provisions in full force and effect. In addition, if the OEP Investor and its affiliates cease to beneficially own, directly or indirectly, at least five percent (5%) of the Company's issued and outstanding shares of Common Stock, then the OEP Investor will no longer need to obtain Sanken's prior written consent before requesting removal of an OEP Director, or designating a replacement as either an OEP Director or an OEP-Independent Director.

Director Independence

Our Common Stock is listed on the Nasdaq Global Select Market ("Nasdaq"). Under Nasdaq rules, a director will only qualify as an "independent director" if that company's board of directors affirmatively determines that such person does not have a relationship with the company that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Our Board undertook a review of the independence of our directors and considered whether any director has a material relationship with us that could compromise that director's ability to exercise independent judgment in carrying out that director's responsibilities. Based upon information requested from and provided by each director concerning his or her background, employment and affiliations, including family relationships, our Board has determined that none of David J. Aldrich, Andrew G. Dunn, Richard R. Lury, Susan D. Lynch, Joseph R. Martin and Paul Carl (Chip) Schorr IV, representing six of our 11 directors, has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is "independent" as that term is defined under Nasdaq rules. In making these determinations, our Board considered the current and prior relationships that each director has with our Company and all other facts and circumstances our Board deemed relevant in determining their independence, including their beneficial ownership of our capital stock and relationships with certain of our significant shareholders, and the transactions involving them described in the section titled "Certain Relationships and Related Person Transactions."

Director Candidates

Other than director candidates designated by Sanken and the OEP Investor pursuant to the Stockholders Agreement, the Nominating and Corporate Governance Committee of the Board is primarily responsible for searching for qualified director candidates for election to the Board and filling vacancies on the Board. To facilitate the search process, the Nominating and Corporate Governance Committee may solicit current directors and executives of the Company for the names of potentially qualified candidates. The Nominating and Corporate Governance Committee may also consult with outside advisors or retain search firms to assist in the search for qualified candidates, or consider director candidates recommended by our shareholders. Once potential candidates are identified, the Nominating and Corporate Governance Committee reviews the backgrounds of those candidates, evaluates candidates' independence from the Company and potential conflicts of interest and determines if candidates meet the qualifications desired by the Nominating and Corporate Governance Committee for candidates for election as a director.

In evaluating the suitability of individual candidates (both new candidates and current Board members), the Nominating and Corporate Governance Committee, in recommending candidates for election, and the Board, in approving (and, in the case of vacancies, appointing) such candidates, may take into account many factors, including: personal and professional integrity, ethics and values; experience in corporate management, such as serving as an officer or former officer of a publicly held company; strong finance experience; relevant social policy concerns; experience relevant to the Company's industry; experience as a board member or executive officer of another publicly held company; relevant academic expertise or other proficiency in an area of the Company's operations; diversity of expertise and experience in substantive matters pertaining to the Company's business relative to other Board members; diversity of background and perspective, including, but not limited to, with respect to age, gender, race, place of residence and specialized experience; practical and mature business judgment, including, but not limited to, the ability to make independent analytical inquiries; and any other relevant qualifications, attributes or skills. The Board evaluates each individual in the context of the Board as a whole, with the objective of assembling a group that can best perpetuate the success of the business and represent shareholder interests through the exercise of sound

judgment using its diversity of experience in these various areas. In determining whether to recommend a director for re-election, the Nominating and Corporate Governance Committee may also consider the director's past attendance at meetings and participation in and contributions to the activities of the Board.

Shareholders may recommend individuals to the Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting the names of the recommended individuals, together with appropriate biographical information and background materials, to the Nominating and Corporate Governance Committee, c/o Secretary, Allegro MicroSystems, Inc., 955 Perimeter Road, Manchester, New Hampshire, 03103. In the event there is a vacancy, and assuming that appropriate biographical and background material has been provided on a timely basis, the Nominating and Corporate Governance Committee will evaluate shareholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others.

Communications from Shareholders

The Board will give appropriate attention to written communications that are submitted by shareholders and will respond if and as appropriate. Our Secretary is primarily responsible for monitoring communications from shareholders and for providing copies or summaries to the directors as our Secretary considers appropriate.

Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that our Secretary considers to be important for the directors to know. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs or personal grievances. Shareholders who wish to send communications on any topic to the Board should address such communications to the Board of Directors in writing: c/o Secretary, Allegro MicroSystems, Inc. 955 Perimeter Road, Manchester, New Hampshire, 03103.

Board Leadership Structure and Role in Risk Oversight

Our Amended and Restated Bylaws and Corporate Governance Guidelines provide our Board with flexibility to combine or separate the positions of Chairman of the Board and Chief Executive Officer in accordance with its determination that utilizing one or the other structure would be in the best interests of our Company. Currently, the roles are separated, with Yoshihiro Suzuki serving as Chairman of the Board and Vineet Nargolwala serving as President and Chief Executive Officer and as a director. Our Board has determined that separating the roles of Chairman of the Board and Chief Executive Officer allows our Chief Executive Officer to focus on the strategic management of our day-to-day business, while allowing the Chairman to focus on leading the Board in its fundamental role of providing advice to, and independently overseeing, management. The Board recognizes the time, effort, and energy that the Chief Executive Officer is required to devote to the position in the current business environment, as well as the commitment required to serve as our Chairman. The Board believes that having separate positions, with a non-executive director serving as the Chairman, is the appropriate leadership structure for our Company at this time and allows the Board to fulfill its role with appropriate independence. For these reasons and because of the strong leadership of Mr. Suzuki and Mr. Nargolwala, our Board has concluded that our current leadership structure is appropriate at this time.

However, our Board will continue to periodically review our leadership structure and may make such changes in the future as it deems appropriate. Our Corporate Governance Guidelines provide that whenever our Chairman of the Board is also a member of management or is a director that does not otherwise qualify as an independent director, the independent directors may elect a lead director. The Board does not currently have a lead director.

Our Board has an active role, as a whole and also at the committee level, in overseeing the management of our risks. Our Board is responsible for overseeing our risk management process. Our Board focuses on our general risk management strategy, the most significant risks facing us, and oversees the implementation of risk mitigation strategies by management. Our Audit Committee is also responsible for discussing our policies with respect to risk assessment and risk management and is responsible for overseeing the management of risks relating to accounting matters and financial reporting. Our Compensation Committee is responsible for overseeing the management of risks relating to our executive compensation plans and arrangements. Our Nominating and Corporate Governance Committee is responsible for overseeing the management of risks associated with the independence of our Board and potential conflicts of interest. Although each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board is regularly informed through discussions with committee members and regular reports from management about such risks, as well as the actions taken by management to adequately address those risks.

Code of Business Conduct and Ethics

Our Board has adopted a written Code of Business Conduct and Ethics that applies to our directors, officers and employees (including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions). A copy of the Code of Business Conduct and Ethics is posted on our investor relations website at investors.allegromicro.com in the "Governance" section under "Documents & Charters." In addition, we have or intend to post on our website all disclosures that are required by law or Nasdaq rules concerning any amendments to, or waivers from, any provision of the code.

Attendance by Members of the Board at Meetings

There were five meetings of the Board during the fiscal year ended March 25, 2022. During the fiscal year ended March 25, 2022, each director attended at least 75% of the aggregate of (i) all meetings of the Board and (ii) all meetings of the committees on which the director served during the period in which he or she served as a director.

Under our Corporate Governance Guidelines, which are available on our investor relations website at investors.allegromicro.com in the "Governance" section under "Documents & Charters," a director is expected to spend the time and effort necessary to properly discharge his or her responsibilities. Accordingly, a director is expected to regularly prepare for and attend meetings of the Board and all committees on which the director serves (including separate meetings of the non-management and independent directors), with the understanding that, on occasion, a director may be unable to attend a meeting. A director who is unable to attend a meeting of the Board or a committee of the Board is expected to notify the Chairman of the Board or the chair of the appropriate committee in advance of such meeting, and, whenever possible, participate in such meeting via teleconference in the case of an in-person meeting. We do not maintain a formal policy regarding director attendance at the Annual Meeting; however, it is expected that directors will attend, absent compelling circumstances.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis describes the philosophy, policies, practices, and material decisions underlying the compensation reported in the executive compensation tables included in this Proxy Statement for the following executive officers and former executive officers of the Company (the “NEOs” or “named executive officers”):

Executive Officers	
Ravi Vig ¹	President and Chief Executive Officer (the “CEO”)
Derek P. D’Antilio	Senior Vice President, Chief Financial Officer and Treasurer (the “CFO”)
Michael C. Doogue	Senior Vice President of Technology and Products
Max R. Glover	Senior Vice President of Worldwide Sales
Thomas C. Teebagy, Jr.	Senior Vice President of Operations and Quality
Former Officers	
Paul V. Walsh, Jr.	Former Senior Vice President, Chief Financial Officer and Treasurer
Christopher E. Brown	Former Senior Vice President, General Counsel and Secretary

1. As previously reported, Mr. Vig retired from his position as President and Chief Executive Officer on June 13, 2022 and was succeeded by Mr. Vineet Nargolwala.

The total compensation of each NEO is reported in the Fiscal Year 2022 Summary Compensation Table presented on page 55 of this Proxy Statement.

Named Executive Officers Transitions in Fiscal Year 2022

Mr. D’Antilio joined the Company as Senior Vice President, Chief Financial Officer, and Treasurer in January 2022 prior to Mr. Walsh’s retirement. To ensure a smooth and orderly transition to the new CFO, Mr. Walsh remained an employee until February 4, 2022 (the “Separation Date”), and entered into a Consulting Agreement (the “Consulting Agreement”). Pursuant to Mr. Walsh’s Consulting Agreement, he agreed to be available to consult with the Company for a period of one year after the Separation Date, and subject to Mr. Walsh’s continued compliance with the restrictive covenants in any written agreements between Mr. Walsh and the Company and his execution of a general release of claims, Mr. Walsh has received or is entitled to receive (i) a single, lump-sum payment equal to a prorated portion of his Annual Incentive Plan (“AIP”) award for the 2022 fiscal year; (ii) continued health insurance benefits at the same contribution rate as active employees for up to 12 months following his Separation Date; and (iii) a one-time grant of time-based restricted stock units (“RSUs”) vesting on the Separation Date with a grant date value equal to the value attributable to an additional 12 months of vesting of Mr. Walsh’s equity awards under the Allegro Microsystems, Inc. 2020 Omnibus Incentive Plan (the “2020 Plan”), which would have otherwise been forfeited as of the Separation Date.

In connection with Mr. D’Antilio’s hire, the Company entered into an offer letter with Mr. D’Antilio (the “Offer Letter”), as well as a severance agreement (the “D’Antilio Severance Agreement”). Under the Offer Letter, Mr. D’Antilio’s annual base salary was set at \$400,000, and his target AIP award set at 75% of his annual base salary (prorated for fiscal year 2022 based on the partial year served). In addition to the prorated target AIP award that Mr. D’Antilio received in 2022, under the terms of the Offer Letter, Mr. D’Antilio also received a \$125,000 signing bonus (the “Signing Bonus”). In the event that Mr. D’Antilio voluntarily resigns within 12 months following his date of hire, Mr. D’Antilio will be required to repay the Signing Bonus. In the event that Mr. D’Antilio voluntarily resigns between 12 and 24 months following his date of hire, Mr. D’Antilio will be required to repay a prorated amount of the Signing Bonus based upon the number of months worked less than two years.

Under the Offer Letter, on February 3, 2022, Mr. D’Antilio received a grant of RSUs representing a number of shares of Common Stock having a grant date fair value of \$1.5 million divided by the closing price of a share of the Company’s Common Stock on Nasdaq on that date. The RSUs will vest as to 60% of the underlying shares on the first anniversary of the grant date and as to the remaining 40% of the underlying shares on the second anniversary of the grant date, in each case, subject to Mr. D’Antilio’s continued employment with the Company through each vesting date.

EXECUTIVE AND DIRECTOR COMPENSATION

The material terms and conditions of the D’Antilio Severance Agreement are summarized under the heading “Severance Agreements” presented on page 60 of this proxy statement.

Mr. Brown separated from the Company in December 2021. Per the terms of the agreement that he entered into in connection with his departure from the Company, and subject to Mr. Brown’s continued compliance with the restrictive covenants in any written agreements between Mr. Brown and the Company and his execution of a general release of claims, Mr. Brown received or will be entitled to receive (i) a single, lump-sum payment on his separation date in an amount equal to a prorated portion of his target AIP award for the 2022 fiscal year, plus 100% of his annual base salary and 100% of his target AIP award for the 2022 fiscal year; (ii) payment of health insurance premiums Mr. Brown incurs for continued coverage under the Company’s group health insurance under COBRA for up to 18 months; and (iii) a one-time grant of RSUs with a grant date value equal to the value attributable to an additional 12 months of vesting of Mr. Brown’s equity awards under the 2020 Plan.

Executive Summary

2022 Business Results

Fiscal year 2022 was an important year for Allegro. The Company delivered record net sales, achieving robust annual revenue growth of 30%, benefiting from multiple tailwinds, including automotive content expansion, design win momentum, and alignment to high growth end markets. We also recorded expanding gross margins and earnings growth of more than 2x our revenue growth, demonstrating the leverage in our operating model. The Company’s investments in R&D are yielding innovations that are giving us a competitive advantage and accelerating new product revenue in strategic growth areas, including Electrified Vehicles (“xEV”), Advanced Driver Assistance Systems (“ADAS”), industry 4.0 and data centers, which are important to our long-term growth.

The following sets forth certain details of our financial results for fiscal year 2022 and the market returns delivered to shareholders, compared to certain benchmarks, for fiscal year 2022 and since our initial public offering in 2020 (the “IPO”):

	Revenue \$M	GAAP Gross margin	Non-GAAP Gross Margin ¹	EBITDA \$M	Adjusted EBITDA \$M ¹	GAAP Diluted EPS	Non-GAAP Diluted EPS ¹

The shareholder return in the table below is not necessarily indicative of, nor it is intended to forecast, the potential future performance of our Common Stock, and we do not make or endorse any predictions as to future shareholder returns. We selected these comparative groups due to industry similarities and the fact that they include several direct competitors.

Important 2022 Compensation Actions

Our Compensation Committee, which consists entirely of independent directors, sets the compensation of our NEOs. In fiscal year 2022, the Compensation Committee took the following actions with respect to the compensation of our NEOs:

- As part of our standard annual review cycle, reviewed the base salaries for our NEOs, approving increases of 25.0%, 6.0%, 4.4%, 12.2% and 2.8% for Messrs. Vig, Walsh, Doogue, Glover and Teebagy, respectively.

EXECUTIVE AND DIRECTOR COMPENSATION

- As part of our standard annual review cycle, reviewed the annual target bonus opportunities for our NEOs under the AIP, increasing Mr. Vig's target bonus opportunity (from 100% to 125% of base salary), Mr. Doogue's (from 65% to 70% of base salary), Mr. Glover's (from 70% to 75%) and Mr. Teebagy's (from 60% to 70% of base salary).
- Approved AIP performance metrics, weighting adjusted EBIT performance at 70% and revenue performance at 30%.
- Approved Long-Term Incentive ("LTI") compensation, consisting of a combination of RSUs and performance-based restricted stock units ("PSUs") to provide strong links to long-term shareholder value creation and promote alignment with investors.

As illustrated below, our executive compensation program utilizes annual and long-term incentive awards, including awards that are contingent on Company performance relative to our key performance metrics. The pay mix chart set forth below is based on target compensation and includes base salary, target annual bonus under the AIP, and long-term equity-based awards approved by the Compensation Committee. Mr. D'Antilio's target compensation was not included in the pay mix chart below because he joined the Company after our annual equity awards for fiscal year 2022 were granted, but all the other NEOs have been included below.

Compensation Philosophy and Objectives

The overall objective of our compensation program is to encourage and reward the creation of sustainable, long-term value for our stakeholders. We pursue this objective via:

- **Alignment with long-term shareholders' interests.** We believe our executives' interests are more directly aligned with our shareholders' interests when compensation programs emphasize an appropriate balance of short- and long-term financial performance and align to the characteristics of our target markets.
- **External Competitiveness.** We believe an executive's total pay should be competitive at the target performance level in order to attract qualified executives, motivate performance and retain, develop and reward executives with the abilities and skills needed to foster long-term value creation.
- **Motivating achievement of financial goals and strategic objectives.** We believe an effective way to create value over the long-term is to make a significant portion of an executive's overall pay dependent on the achievement of our short- and long-term financial goals and strategic objectives.
- **Rewarding superior performance.** We believe that although an executive's total compensation should be tied to achievement of financial goals and strategic objectives and should be competitive at the target performance level, performance that exceeds target should be appropriately rewarded. We also believe there should be downside risk of below-target payouts if our financial performance is below target and if we do not achieve our financial goals and strategic objectives.
- **Responding to change.** We believe that as our industry continues to evolve and our opportunities for competitive business advantages change over time, we must also continue to evolve in order to continue to create value. Our compensation programs must likewise be tailored to our strategic priorities (which may require changing the performance measures in our incentive plans from time to time) and our current outlook (which may impact how we calibrate incentive plan payouts to various levels of performance).

Compensation Governance and Best Practices

We are committed to maintaining strong governance standards with respect to our compensation programs, procedures and practices. For example:

What we do

- ✓ Our executive compensation decisions are made by the independent members of our Board or by our Compensation Committee, which is made up exclusively of independent members.
- ✓ Our Compensation Committee has retained an independent executive compensation consulting firm to provide objective analysis, advice and information.
- ✓ We make a significant portion of each NEO's overall compensation dependent on our performance measures against pre-determined targets for short- and long-term financial performance measures, targets that we believe are challenging, yet achievable.
- ✓ We provide a significant portion of each NEO's overall compensation opportunity in the form of at-risk, equity-based incentive awards to establish a strong link between an NEO's compensation and our stock price performance.
- ✓ Our NEOs and independent members of our Board are subject to robust stock ownership guidelines.
- ✓ Our 2020 Plan provides for recoupment of incentive awards in the event of a material financial restatement due to material noncompliance with financial reporting requirements or breach of restrictive covenants.

What we don't do

- ✓ We do not provide our NEOs with material executive perquisites.
- ✓ We prohibit hedging and pledging of the Company's equity securities by all officers, directors, and employees.
- ✓ We generally do not provide tax gross ups, including in the event of a change in control of the Company (a "change in control") or otherwise.
- ✓ We do not provide for single-trigger vesting of unvested equity awards in the event of a change in control.
- ✓ We currently have no outstanding stock option awards, but if we choose to grant option awards in the future, we do not permit the repricing or back-dating of stock option awards.

Role of the Compensation Committee, Compensation Consultant and Management

In setting executive compensation, the Compensation Committee considers a number of factors, including the CEO's recommendations (other than with respect to his own compensation), taking into account the recommendations and competitive market data and analysis provided by the Compensation Committee's independent compensation consultant, Company performance and each executive's impact on that performance, each executive's relative scope of responsibility and potential, each executive's individual performance and demonstrated leadership, and each executive's professional experience and tenure with the Company. The Compensation Committee also considers prior fiscal year adjustments to executive compensation, historical payments under our AIP and our historical equity award grant practices. The Compensation Committee has the final authority to approve annual compensation packages for all executives.

Prior to the start of each fiscal year, we develop Company performance metrics aligned with our annual operating plan for our employees, including our NEOs. These goals represent key performance objectives that are incorporated into the AIP framework and then submitted to the Compensation Committee for consideration and approval. After our fiscal year-end financial results are available, the Compensation Committee approves annual bonus payout amounts under our AIP for our executives for the just-completed fiscal year.

The Compensation Committee has engaged Meridian Compensation Partners, LLC ("Meridian"), an independent compensation consulting firm, to provide research and analysis and to make recommendations on the form and level of executive compensation. The Compensation Committee sought input from Meridian on executive compensation matters for the 2022 fiscal year, including the design and competitive position of our executive compensation program, our peer group (see the following page below for additional information on our peer group), appropriate compensation levels, and evolving compensation trends.

Based on its consideration of the various factors set forth in the rules promulgated by the SEC and Nasdaq rules, the Compensation Committee has determined that the work performed by Meridian has not raised any conflict of interest.

Competitive Positioning

We periodically perform a competitive market analysis of our executive and director compensation programs to ensure that the total compensation packages of our executive officers and the non-employee members of our Board are within a reasonably competitive range. In connection with its fiscal year 2022 compensation actions and decisions, the Compensation Committee considered a competitive market analysis prepared by Meridian in February of 2021 (see below for more information on the competitive market analysis). The Meridian analysis determined that the NEOs' cash compensation, comprised of annual base salary, plus annual target bonus under the AIP, was in the 25th percentile relative to competitive market data. The analysis also found that the equity incentive awards that we granted in connection with the consummation of our IPO during fiscal year 2021 were in the 50th percentile and, on an executive-to-executive basis, ranged from below the 30th to the 65th percentile. This analysis excluded compensation for Mr. D'Antilio, who did not join the Company until January 2022.

The Compensation Committee considered these results in its compensation program decision-making for fiscal year 2022.

Competitive Market Analysis

In February 2021, Meridian conducted a competitive market analysis to support the Compensation Committee in connection with its executive and non-employee director compensation decisions for fiscal year 2022. To develop an understanding of the competitive marketplace, the Compensation Committee reviewed the executive compensation practices of a group of publicly traded companies (the "Peer Group") based on compensation data gathered from publicly available filings. Meridian worked with the Compensation Committee to review the Company's Peer Group.

In determining the Peer Group to be utilized in making compensation decisions for fiscal year 2021, the Compensation Committee and Meridian reviewed and considered factors such as industry, total revenue, market capitalization, growth, and profitability margins. The Peer Group was selected based on the evaluation of all of these factors, and consisted of the following 16 companies:

Peer Group	
Analog Devices, Inc.	Microchip Technology Incorporated
Azenta, Inc. (formerly Brooks Automation, Inc.)	Monolithic Power Systems, Inc.
Cirrus Logic, Inc.	ON Semiconductor Corporation
Diodes Incorporated	Power Integrations, Inc.
Inphi Corporation	Semtech Corporation
Lattice Semiconductor Corporation	Silicon Laboratories
MACOM Technology Solutions Holdings, Inc.	Synaptics Incorporated
MaxLinear, Inc.	Wolfspeed, Inc. (formerly Cree, Inc.)

As indicated in the table below, at the time of the competitive market analysis in February 2021, our revenue approximated the Peer Group 34th percentile, our headcount the 69th percentile and our market capitalization the 48th percentile.

The Compensation Committee uses the market analysis as a reference point to ensure that our executive compensation program is competitive with market practice. In the case of each executive officer, the Compensation Committee compares the overall compensation of each individual against the compensation data developed through the market analysis, if their position is sufficiently similar to the positions identified in the data to make the comparison meaningful. The Compensation Committee reviews a full array of competitive market data as part of this comparison process rather than isolating a particular percentile with respect to any portion of the executives’ pay. Ultimately, the Compensation Committee’s decisions with respect to each executive’s total compensation, and each individual compensation element, are based in large part on its assessment of the Company’s and individual’s performance, as well as other factors, such as internal equity across the organization.

Compensation Elements

We use the following key elements to compensate our NEOs:

Compensation Element	Purpose	Timing of Payment(s)
Base Salary Representing the only fixed element of total direct compensation	<ul style="list-style-type: none"> Provide a competitive fixed rate of pay relative to similar positions in the market. Enable the Company to attract and retain critical executive talent. 	<ul style="list-style-type: none"> Paid bi-weekly throughout the year
Annual Incentive Plan (AIP) Cash-settled and tied to the achievement of short-term (less than one year) Company financial and / or strategic goals	<ul style="list-style-type: none"> Focus executive officers on achieving progressively challenging short-term performance goals that align with the Company’s annual operating plan and result in long-term value creation. 	<ul style="list-style-type: none"> Lump-sum payment in the first quarter of the following fiscal year for executives as of the end of the fiscal year
Long-Term Incentives Comprised of a selection of equity instruments and vesting criteria tailored to promote long-term alignment of pay with shareholders	<ul style="list-style-type: none"> Focus our executive officers on long-term relative and absolute performance goals that strongly align with and drive shareholder value creation, as well as support the Company’s leadership retention strategy. 	<ul style="list-style-type: none"> Annual equity awards generally vest over a four-year period from date of grant

Variation in competitive positioning among executives is to be expected, to recognize differences in individual performance, tenure, or scope of responsibility relative to market. However, we generally position each compensation element within a

EXECUTIVE AND DIRECTOR COMPENSATION

competitive range (+/- 15% for Base Salary and AIP target compensation, +/- 20% for grant date fair value of Long-Term Incentives) of the market 50th percentile.

Fiscal Year 2022 Base Salaries

NEO base salaries are an important part of their total compensation package and are intended to reflect their respective positions, duties, and responsibilities. Our Compensation Committee annually reviews and determines the base salaries of our executives and evaluates the base salaries of new hires at the time of hire, as it did in fiscal year 2022 for Mr. D'Antilio in connection with his hiring. During fiscal year 2022, the Compensation Committee reviewed the base salaries of the NEOs, approving the adjustments shown in the table below, as applicable, for all NEOs other than Mr. D'Antilio who joined the Company in January 2022 and whose base salary was negotiated in connection with his hiring. In deciding whether to make any adjustments, the Compensation Committee considered factors, including each NEO's performance, tenure, and job responsibilities, in addition to considering market information from our February 2021 competitive analysis. The significant increases for Messrs. Vig and Glover, as reflected in the table below, resulted from the competitive analysis, which indicated that these two NEOs were previously positioned in the bottom quartile of the Peer Group and more than 10% below the Peer Group 50th percentile for base salary.

Fiscal Year 2022 AIP

Each of our NEOs participates in our AIP, which is focused on rewarding our executive officers for annual operating performance that meets or exceeds pre-established goals. The Compensation Committee periodically reviews and determines each NEO's target bonus opportunity (expressed as a percentage of base salary) under the AIP. During fiscal year 2022, the Compensation Committee reviewed each NEO's target bonus opportunity, approving the adjustments shown in the table below, as applicable, for all NEOs other than Mr. D'Antilio who joined the Company in January 2022 and whose target bonus opportunity was negotiated in connection with his hiring. The Compensation Committee considered the same factors as in its deliberations relating to base salaries, as well as our desire to motivate achievement of short-term financial objectives via meaningful annual incentive opportunities. Following these adjustments, each NEO target bonus opportunity was closely aligned to the market 50th percentile, as detailed in the February 2021 competitive analysis.

1. Mr. D'Antilio joined the Company in January 2022.

The actual amount of the annual bonuses paid under the AIP each year may be more or less than the applicable NEO's target bonus opportunity, depending on Company performance against a set of pre-established performance metrics. For fiscal year 2022, these Company performance metrics included adjusted EBIT (weighted 70%) and revenue, as represented by year-over-

EXECUTIVE AND DIRECTOR COMPENSATION

year sales growth percentage (weighted 30%). The annual bonuses under the AIP are also subject to potential increase or reduction at the discretion of the Compensation Committee, based on individual NEO performance during the fiscal year.

The table below illustrates AIP determinations at various levels of performance and the actual performance in fiscal year 2022 for each metric. For performance between points referenced in the table, straight line interpolation is used for the determination of actual achievement of performance metrics.

Performance Metric		Threshold	Target	Maximum	Actual Performance
Adjusted EBIT	Performance Goals (\$ millions)	\$ 111.6	\$ 139.5	\$ 181.4	\$ 180.6
	% Pool Funding	33.3 %	100.0 %	200.0 %	197.4 %
Revenue	Performance Goals (% growth)	70.9 %	14.2 %	21.3 %	30.0 %
	% Pool Funding	50.0 %	100.0 %	200.0 %	200.0 %

In May 2022, the Compensation Committee assessed the Company's fiscal year 2022 achievement of the corporate performance objectives. The sum of the Adjusted EBIT portion of the pool funding (70% weighting, multiplied by funding achieved at 197% of target) and the revenue portion of the pool funding (30% weighting, multiplied by funding achieved at 200% of target) for fiscal year 2022 resulted in achievement at 198.2% of target. Per the terms of his agreement with the Company, the portion of Mr. Brown's lump-sum payment attributable to his 2022 AIP award was funded at target and prorated to reflect his partial service in fiscal year 2022.

Messrs. Glover and Teebagy each received a 1.15x individual multiplier for individual performance. This multiplier was in recognition of demonstrating extraordinary leadership and resilience as we navigated strong customer demand and supply chain imbalances during fiscal year 2022. All other NEOs received an individual multiplier of 1.00.

The table below illustrates the final AIP payout determinations for each NEO.

Additional Bonus Awards in Fiscal Year 2022

Mr. D'Antilio received a \$125,000 signing bonus in accordance with his offer letter as an inducement to join the Company. In the event that Mr. D'Antilio voluntarily resigns within 12 months his date of hire, Mr. D'Antilio will be required to repay the signing bonus. In the event that Mr. D'Antilio voluntarily resigns between 12 and 24 months following his date of hire, Mr. D'Antilio will be required to repay a prorated amount of the signing bonus based upon the number of months worked less than two years.

Mr. Glover received \$151,000 as the final installment of his deferred hiring bonus pursuant to his offer letter, which was included as an inducement to join the Company in 2019. In the event that Mr. Glover voluntarily resigns in less than three full years from his date of hire, he will be required to repay this installment and all other installments of his deferred hiring bonus that have previously been paid to Mr. Glover.

Fiscal Year 2022 Equity Compensation

We use equity awards as a form of long-term incentive compensation to motivate and reward executive officers for effectively executing longer-term strategic and financial objectives. The multi-year vesting provisions of these awards also support the Company’s leadership retention strategy. The value of these equity awards is based on the value of our Common Stock, and these awards help align the interests of our executive officers with those of the Company’s shareholders.

In fiscal year 2022, our annual equity awards consisted of a combination of RSUs and PSUs. Further details regarding awards granted during fiscal year 2022 are set forth below. The Compensation Committee elected to use PSUs as the primary equity vehicle for annual equity awards to NEOs because these awards reflect a balance between significant upside potential for superior performance, and decline in award size, potentially to zero, for performance that is below threshold level expectations.

The Compensation Committee exercises its judgment in determining the size of the equity awards granted to executive officers. For each eligible executive, the Committee considers the relative value of equity awards compared to the equity awards held by other executive officers, the desired incentive mix between PSU awards and RSU awards, a compensation analysis performed by Meridian, and the individual experience, skills and performance level of the executive officer.

Annual Equity Awards

The annual equity awards granted to each of our NEOs, other than Mr. D’Antilio, who had not yet joined the Company when these awards were granted in May 2021, generally consisted of RSUs (40% of each award) and PSUs (60% of each award), except for Mr. Glover whose award consisted of a slightly higher PSU-to-RSU ratio. The RSUs are scheduled to vest in four equal installments on each of May 16, 2022, 2023 and 2024, subject to continued employment through each vesting date. The PSUs vest based on achievement of three separate performance and service criteria, as outlined in the table below and described in greater detail following the table.

Performance Metric	PSU Award Weighting (at target)	Performance Period	Additional Service-Based Vesting after Performance Period
Relative Total Shareholder Return (“Relative TSR”)	50%	Three years (fiscal years 2022 through 2024)	None, earned portion of PSU shares (if any) based on this metric vest on May 16, 2024
Emerging Product Revenue	25%	One year (fiscal year 2022)	Earned portion of PSU shares (if any) based on this metric vest 50% on May 16, 2022 and 50% on May 16, 2023
Cumulative Adjusted EBITDA	25%	One third allocated to each of one year (fiscal year 2022), two-year (fiscal years 2022 and 2023) and three-year (fiscal years 2022 through 2024) performance periods	Earned portion of PSU shares (if any) based on this metric vest on May 16, 2024

The Relative TSR portion of the PSUs are earned based on our total shareholder return (“TSR”) performance, as measured relative to the performance of companies in the Philadelphia Semiconductor Index (“SOX Index”) over a three-year period (fiscal years 2022 through 2024). Target vesting at 100% of this portion of the award is achieved if the Company’s TSR equals the TSR of the median company in the SOX Index. The actual number of PSUs that will be earned can range from 0% - 200% of the target amount, with a threshold vest (fixed at 50% of the target number of PSUs for this portion of the award) achieved if the Company’s TSR equals the TSR of the 25th percentile SOX Index company, and a maximum vest (fixed at 200% of the target number of PSUs for this portion of the award) achieved if the Company’s TSR equals the TSR of the 75th percentile SOX Index company. Straight line interpolation is used for vesting determinations for performance between threshold and target or between target and maximum. If the Company’s TSR is negative during the performance period, vesting is capped at target for this portion of the award, regardless of what the award formula would otherwise specify for this portion of the award.

EXECUTIVE AND DIRECTOR COMPENSATION

Performance Metric		Threshold			Target		Maximum
	Goal	<25th	25th	37.5th	50th	62.5th	75th
TSR percentile rank vs. SOX	Payout % (positive TSR)	—%	50.0%	75.0%	100.0%	150.0%	200.0%
	Payout % (negative TSR)	—%	50.0%	75.0%		100.0%	

The Emerging Product Revenue portion of the PSUs are earned based on our revenue applicable to the xEV, ADAS and Industrial markets in fiscal year 2022, as compared to pre-established threshold, target and maximum goals. The table below illustrates Emerging Product Revenue PSU payout determinations at various levels of performance, including actual performance in fiscal year 2022, and the resulting payout (i.e., the percentage of target PSUs for this portion of the award that vested one half on May 16, 2022, with the remaining half to vest on May 16, 2023, subject to a recipient meeting the continued service requirement). For performance between points referenced in the table, straight line interpolation was used for PSU vesting determination.

Performance Metric		Threshold		Target	Maximum	Actual Performance

	Payout %		50.0 %		100.0 %		185.1 %

The cumulative adjusted EBITDA portion of the PSUs are earned based on cumulative adjusted EBITDA, as compared to threshold, target and maximum goals for each of fiscal year 2022, the two-year period encompassing fiscal years 2022 and 2023, and the three-year period encompassing fiscal years 2022, 2023 and 2024. The table below illustrates cumulative adjusted EBITDA PSU payout determinations for the one third of cumulative adjusted EBITDA PSUs allocated to fiscal year 2022 performance, and the resulting payout (i.e., the percentage of PSUs allocated to fiscal year 2022 performance that will vest on May 16, 2024, subject to a recipient meeting the continued service requirement) for this portion of the award. For performance between points referenced in the table, straight line interpolation was used for PSU vesting determination.

Mr. D’Antilio’s New Hire Award

In connection with Mr. D’Antilio joining the Company, he was granted a one-time award of RSUs in February 2022 (the “New Hire Award”). The New Hire Award is scheduled to vest as to 60% of the underlying RSUs on the first anniversary of the grant date, and the remaining 40% of the underlying RSUs are scheduled to vest on the second anniversary of the grant date, in each case, subject to Mr. D’Antilio’s continued employment with the Company on each applicable vesting date.

Additional awards of RSUs to Messrs. Walsh, Doogue and Teebagy and PSUs to Mr. Vig

Immediately following our IPO, the restricted shares of our Class A and Class L common stock for most of our senior executives vested in full in accordance with their terms. As multi-year vesting provisions of long-term equity incentive awards support our leadership retention strategy, we granted new market-competitive awards of RSUs and PSUs at the time of our IPO, in part to

EXECUTIVE AND DIRECTOR COMPENSATION

bolster retention of our NEOs. These IPO equity awards were heavily weighted towards PSUs, which are eligible to vest over a three-year performance period.

To strengthen the retention value of our compensation program, in addition to the IPO equity awards described above, we granted awards of RSUs in May 2021 to Messrs. Doogue, Teebagy and Walsh that vest 75% on May 16, 2022, and 25% on May 16, 2023.

We also granted an additional award of PSUs in May 2021 to Mr. Vig, serving to both strengthen the retention value of our compensation program and reinforce our pay-for-performance philosophy. These PSUs link additional compensation to achievement of important financial results. They are earned based on cumulative revenue improvement and cumulative adjusted EBITDA, as compared to threshold, target, and maximum goals for each of fiscal years 2022 and 2023. Each of these two performance metrics is weighted 50% for each performance period.

Target performance goals reference our 2022-2024 Mid-Term Plan ("MTP"), as approved by the Company's Board of Directors. The MTP is a three-year operating plan, approved prior to the beginning of each fiscal year.

The portion of PSUs allocated to fiscal year 2022 performance represent 75% of the total target award, and earned PSUs vested on May 16, 2022. The table below illustrates the PSU payout determination for this portion of the award. For performance between points referenced in the table, straight line interpolation was used for PSU vesting determination.

Performance Metric		Threshold	Target	Maximum	Actual Performance
Fiscal Year 2022 Cumulative Revenue Improvement	Goal (\$ millions)	\$ 71.2	\$ 83.8	\$ 96.4	\$ 177.5

	Payout %	50.0 %	100.0 %	200.0 %	200.0 %

The portion of PSUs allocated to cumulative fiscal years 2022 and 2023 performance represent 25% of the target award, and earned PSUs (if any) will vest on May 16, 2023. The table below illustrates the potential payout determination for this portion of the award. For performance between points referenced in the table, straight line interpolation will be used for PSU vesting determination.

Additional awards of RSUs to Messrs. Walsh and Brown

In connection with their departures during fiscal year 2022, we granted RSUs to Messrs. Walsh and Brown. These RSUs vested upon separation, contingent on each former NEO's timely execution and non-revocation of a general release of claims. Each NEO's award was designed (based on grant date fair value of our Common Stock) to approximate the value attributable to an additional 12 months of vesting of each former NEO's outstanding equity awards under the 2020 Plan at the time of departure.

Benefits and Perquisites

We maintain broad-based benefits for all employees, and our NEOs are eligible to participate on the same basis as other U.S.-based full-time employees. The retirement plan, as well as our other benefits, are designed to be competitive in the labor market and to provide financial protection and security for employees and their families.

Health/Welfare Plans

We offer medical and dental insurance to our NEOs and pay a portion of the premiums for these benefits consistent with the arrangements for all of our other U.S.-based, full-time employees. We also provide our NEOs and other eligible employees, at our expense, with group life and accidental death and dismemberment insurance benefits; short-term and long-term disability insurance benefits; paid time off benefits; and other ancillary benefits (for example, an employee assistance program).

Charitable Contributions

Subject to certain limitations, we match charitable donations made by our employees, including our NEOs, to eligible charitable organizations, up to a \$5,000 annual limit per employee.

Inventor Awards Program

Under our Inventor Awards Program, our employees, including our NEOs, are eligible to earn cash incentives associated with U.S. patents, including upon filing invention disclosures, issuances of first, second and third patents associated with such invention disclosures, and in respect of an annual "innovation award" selected from patents issued in respect of invention filings in a given year. Incentives associated with the foregoing patent-related awards range from \$100 to \$5,000 per occurrence, depending on the particular type of award.

Retirement Plan

We currently maintain a 401(k) retirement savings plan (the "401(k) Plan") for our U.S.-based employees, including our NEOs, who satisfy certain eligibility requirements. Our NEOs are eligible to participate in the 401(k) Plan on the same terms as other full-time employees in the U.S. The Internal Revenue Code of 1986, as amended (the "Code") allows eligible employees to defer a portion of their compensation, within prescribed limits, on a pre-tax basis or after-tax basis through contributions to the 401(k) Plan. During fiscal year 2022, we matched contributions made by participants in the 401(k) Plan up to five percent (5%) of the employee's eligible compensation, up to the statutory eligible compensation limit, and these matching contributions are fully vested as of the date they are made.

Deferred Compensation Plan

We maintain an Executive Deferred Compensation Plan (the "DCP") under which eligible employees, including our NEOs, are permitted to defer up to 90% of their base salary and/or up to 100% of any amount earned under the AIP. All deferrals are fully vested as of the date the deferral is made. During fiscal year 2022, we also made fully vested employer contributions to our NEOs' (and other participants') DCP accounts. The amounts of this contribution were designed to replace matching contributions to our 401(k) Plan for eligible wages paid over the applicable statutory limits and are capped at five percent (5%) of the participant's annual eligible compensation that exceeds the statutory limit. Amounts deferred under the DCP may be notionally invested by participants in one or more of the investment choices offered in the DCP, many of which are the same investments offered in the 401(k) Plan, and are subject to adjustment for earnings or losses resulting from these investments. DCP accounts are generally distributable upon the first to occur of a participant's termination of employment (subject to a six-month delay if required by applicable regulations), the participant's death, or a change in control of the Company. Participants may also elect certain in-service or other fixed distribution dates and/or installment payments (including with respect to distributions following a termination of employment).

No Perquisites or Tax “Gross Ups”

We do not currently provide material perquisites to our NEOs, and we do not view perquisites or other personal benefits as a significant component of our executive compensation program. In the future, we may provide perquisites or other personal benefits in limited circumstances, such as where we believe it is appropriate to assist an individual executive officer in the performance of the executive’s duties, to make our executive officers more efficient and effective, and for recruitment, motivation, or retention purposes. All future practices with respect to perquisites or other personal benefits will be approved by the Compensation Committee.

We generally do not provide tax “gross ups” to our named executive officers.

Compensation Policies

Prohibition on Option Re-Pricing and Backdating

We currently have no outstanding stock option awards, but if we choose to grant stock options in the future, options to purchase shares of our Common Stock will be granted with an exercise price equal to the closing market price of our Common Stock on Nasdaq on the effective date of grant. The 2020 Plan prohibits re-pricing of equity awards without shareholder approval, except in connection with certain corporate transactions involving the Company (including, without limitation, any stock dividend, distribution, stock split, extraordinary cash dividend, recapitalization, change in control, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of shares of Company stock or other securities, or similar transactions).

Compensation Recovery

Under the Sarbanes-Oxley Act, in the event of misconduct that results in a financial restatement that would have reduced a previously paid incentive amount, we can recoup those improper payments from our CEO and CFO. In addition, our 2020 Plan provides for potential recoupment of incentive awards in certain circumstances in the event of a material financial restatement due to material noncompliance with financial reporting requirements or breach of restrictive covenants, if determined by the Compensation Committee.

We expect to adopt a compensation clawback policy encompassing both performance-based cash and equity compensation compliant with the regulations that may be adopted under the Dodd-Frank Act when the regulations are adopted by the SEC and corresponding listing standards become effective.

Anti-Hedging and Anti-Pledging Policies

Our Board has adopted an Insider Trading Compliance Policy, which applies to all directors, officers and employees of the Company and its subsidiaries, as well as their respective family members sharing the same household, and any other company, account, trust, or other entity that they control (the “Covered Persons”). The policy prohibits Covered Persons from purchasing financial instruments such as prepaid variable forward contracts, equity swaps, collars, and exchange funds, or otherwise engaging in transactions that hedge or offset, or are designed to hedge or offset, any decrease in the market value of the Company’s equity securities, or that may cause any Covered Person to no longer have the same objectives as the Company’s other shareholders. In addition, our Insider Trading Compliance Policy provides that no Covered Person may pledge Company securities as collateral to secure loans. This prohibition means, among other things, that these individuals may not hold Company securities in a “margin” account, which would allow the individual to borrow against their holdings to buy securities.

Stock Ownership Guidelines

The Company has robust stock ownership guidelines for directors and officers that require each non-employee director and officer to own shares of our Common Stock. Under the guidelines, all current non-employee directors, and officers, including our NEOs, must own shares of our Common Stock with a value equal to a certain multiple of their annual Board retainer, in the case of non-employee directors, or base salary, in the case of officers. Please refer to the table below for the applicable multiple for our non-employee directors, CEO and other officers. Equity interests that count towards the satisfaction of the ownership guidelines include vested shares, including shares owned outright, shares jointly owned, and shares owned in trust. Non-employee directors and officers have four years from the date of the Company’s IPO or, if later, the date they first become a member of the Board or an officer to meet the ownership levels. All of our NEOs employed at the end of fiscal year 2022 were either in compliance with our stock ownership guidelines or are expected to be in compliance within this time window.

Covered Person	Multiple of Base Salary / Board Retainer
Non-Employee Director	3x
Chief Executive Officer	6x
Other Officers	3x

Compensation Risk Assessment

Our Compensation Committee has reviewed our incentive compensation programs, discussed the concept of risk as it relates to our compensation program, considered various mitigating factors, and reviewed these items with its independent compensation consultant, Meridian. In addition, our Compensation Committee asked Meridian to conduct an independent risk assessment of our executive compensation program. Based on these reviews and discussions, the Compensation Committee does not believe our compensation program creates risks that are reasonably likely to have a material adverse effect on our business.

Tax and Accounting Considerations

Section 162(m) of the Code generally limits the amount of remuneration that the Company may deduct in any calendar year for certain executive officers to \$1.0 million. While the Compensation Committee will continue to consider the deductibility of compensation as a factor in making compensation decisions, it retains the flexibility to provide compensation that is consistent with the Company's goals for its executive compensation program, even if such compensation would not be fully tax-deductible.

"Golden Parachute" Payments

Sections 280G and 4999 of the Code provide that certain executive officers and other service providers who are highly compensated or hold significant equity interests may be subject to an excise tax if they receive payments or benefits in connection with a change in control of the Company that exceeds certain prescribed limits, and that we, or a successor, may forfeit a deduction on the amounts subject to this additional tax. We do not provide any tax gross ups to cover excise taxes under Section 4999 in connection with a change in control.

Accounting for Share-Based Compensation

We follow Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 718 for all stock-based awards. ASC Topic 718 requires companies to measure the compensation expense for all share-based payment awards made to employees and directors, including stock options and full value stock awards, based on the aggregate grant date "fair value" of these awards. This calculation is performed for accounting purposes and reported in the compensation tables on pages 55-64 of this Proxy Statement. ASC Topic 718 also requires companies to recognize the compensation cost of their stock-based compensation awards in their income statements over the period that an executive officer is required to render service in exchange for the option or other award.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis as set forth in this Proxy Statement. Based upon this review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be incorporated by reference in the Company's Annual Report on Form 10-K for its fiscal year ended March 25, 2022 and included in the Company's 2022 Proxy Statement filed in connection with the Company's 2022 Annual Meeting of Shareholders.

1. Reflects salary paid in the fiscal year. For NEOs whose fiscal year 2021 compensation is provided, their annual base salaries during fiscal year 2021 were temporarily reduced by approximately 15% from May 2020 until September 2020 as part of the Company's cost saving initiative in response to the COVID-19 pandemic. No make-whole payments in relation to such salary reductions were paid.
2. Represents a signing bonus paid in connection with the executive joining the Company.
3. Amounts shown represent the aggregate grant date fair value of RSU and PSU awards made during fiscal 2022 and 2021, respectively, calculated in accordance with FASB ASC Topic 718. For information on the valuation assumptions with respect to these awards, refer to note 19 of the Allegro MicroSystems, Inc. financial statements for the year ended March 25, 2022, that were included in our Annual Report on Form 10-K. For performance-based awards, the amounts shown reflect the grant date fair value of such awards based upon the probable outcome at the time of grant, which was determined to be 100% of the target award level. If performance-based awards were shown at their maximum attainment level, then the aggregate grant date fair values shown in the table above for fiscal 2022 would be as follows: Mr. Vig: \$9,820,112; Mr. D'Antilio: \$0; Mr. Doogue: \$660,009; Mr. Glover: \$920,006; Mr. Teebagy:

EXECUTIVE AND DIRECTOR COMPENSATION

4. Represents payments made under the AIP in the first quarter of the 2023 fiscal year for performance during the 2022 fiscal year.

Potential Payments upon Termination or Change in Control

Overview

The information provided in the following tables reflects the amount of incremental compensation required to be paid to each applicable NEO in the event of a change in control of the Company, or a termination of the NEO's employment. For purposes of the disclosure, we have assumed that all triggering event(s) took place on March 25, 2022, and we used the closing price per share on Nasdaq of our Common Stock on March 25, 2022 (\$29.18). Due to the number of factors that affect the nature and amount of benefits provided upon the occurrence of such events, actual amounts paid or distributed may be different from the amounts disclosed below. Factors that could affect the actual amounts paid include:

- when the event actually occurs;
- the number of outstanding but unvested stock awards then held by the NEO;
- awards granted after March 25, 2022;
- the Company's Relative TSR over a specified period and its performance against certain financial and/or business objectives established for determining the level of payment and/or vesting of outstanding, but unvested, stock awards; and
- the Company's stock price as of the date of such event.

Specifically excluded from the information and tables below are any amounts which are not contingent upon the occurrence of the triggering event(s) or payments pursuant to Company benefit plans that are generally available to all U.S. salaried employees of the Company and do not discriminate in scope or terms of operation in favor of our NEOs (e.g., term life insurance, long-term disability insurance, etc.).

The payments and benefits Messrs. Walsh and Brown actually received in connection with their separation from the Company are set forth in the Summary Compensation Table on page 55 and are described in the Compensation Discussion and Analysis Section. Amounts for Messrs. Walsh and Brown are not included in the tables below since they left the Company prior to the end of fiscal year 2022.

Severance Agreements

We entered into severance agreements with each of Messrs. Vig, Doogue, Glover and Teebagy on October 3, 2017 (together, the "Severance Agreements"). On September 30, 2020, the Company amended and restated the Severance Agreements.

On January 10, 2022, we entered into a severance agreement with Mr. D'Antilio (the "D'Antilio Severance Agreement") in connection with his hiring.

The Severance Agreements (as amended and restated) and the D'Antilio Severance Agreement provide that if a NEO's employment is terminated by the Company without "cause" or by the executive for "good reason" (each such term as defined in the applicable agreement) (a "Qualifying Termination"), subject to the executive's execution of an effective general release of claims and continued compliance with applicable non-competition, non-solicitation and (in the cases of Messrs. Vig, Doogue, Glover and Teebagy) other restrictive covenants applicable to the executive pursuant to their respective pre-IPO share award agreement, we will pay or provide the executive with the following severance benefits:

- (i) a cash payment equal to a percentage of the executive's annual base salary and target bonus, in each case, as in effect on the date of such termination, equal to 300% (for Mr. Vig), 200% (for Mr. D'Antilio), and 100% (for Messrs. Doogue, Teebagy and Glover);
- (ii) a cash payment equal to the amount of the executive's target bonus in effect on the applicable date of termination, prorated for the number of days the executive was employed by the Company during the year of such termination;
- (iii) any then-outstanding incentive equity awards (then-held by our NEOs) will be governed by the applicable equity incentive plan or award agreement; and
- (iv) Company-paid continued health care coverage for up to thirty-six months (for Mr. Vig), up to twenty-four months (for Mr. D'Antilio) and up to eighteen months (for Messrs. Doogue, Glover and Teebagy) following the date of such termination. Mr. D'Antilio's agreement also provides that, to the extent such COBRA continuation would result in the imposition of income taxes on Mr. D'Antilio, an additional monthly payment would be made to Mr. D'Antilio to cover the amount of any such taxes for up to 18 months following the date of such termination.

Subject to applicable withholding, the cash severance benefits described in clauses (i) and (ii) above will be paid as follows: (A) for Mr. Vig, two times the lesser of (x) Mr. Vig's annualized compensation for the year prior to the year in which the termination occurred and (y) the maximum amount that may be taken into account under a qualified plan under Section 401(a) of the Code for the year of termination, will be payable in equal monthly installments during the twelve-month period following the date of such termination in accordance with our normal payroll practices, and the remaining portion of Mr. Vig's cash severance benefits will be paid in a lump-sum payment within 60 days following termination; and (B) for Messrs. D'Antilio, Doogue, Glover and Teebagy, 100% of the sum of the executive's annual base salary and target bonus plus the prorated target bonus will be paid to the applicable executive in a lump-sum payment within fifteen days following termination.

Potential Payments upon Termination or a Change in Control

Our NEOs would be entitled to severance payments and benefits in the event their employment with us is terminated following an involuntary termination, which would include a termination of the officer's employment by us without cause or a resignation for good reason, or a Qualifying Termination. For more information, refer to the discussion above under the heading "Severance Agreements." In addition, under the terms of the 2020 Plan, if an NEO is terminated without "cause" on or within 12 months following a change in control of the Company, all outstanding equity incentive awards held by such executive under the 2020 Plan will vest, with performance measured based on the greater of target or actual performance. "Cause" is defined under the 2020 Plan as the definition given to such term in a NEO's severance agreement. Upon a Qualifying Termination outside of such 12-month period following a change in control of our Company, such executive's RSUs which are eligible to vest on the next vesting date following such termination will vest, and a prorated portion of such executive's PSUs would vest as of the date of such termination.

The D'Antilio Severance Agreement provides that in the event that the severance benefits set forth in (i) and (ii) of the "Severance Agreements" section above, the health care continuation coverage benefit, and/or any other any payment, coverage or benefit, including any accelerated vesting of Company equity compensation, provided in respect of Mr. D'Antilio's employment or termination of employment would constitute "parachute payments" within the meaning of Section 280G(b)(2) of the Code or would subject Mr. D'Antilio to an excise tax under Section 4999 of the Code, then, provided that the requirements of Treas. Reg. Section 1.280G-1 Q&A-6(a)(2)(i) are met, the Company shall use its reasonable best efforts to obtain shareholder approval with respect to such parachute payments pursuant to Section 280G(b)(5)(B) of the Code, subject to Mr. D'Antilio's execution of a contingent waiver of his receipt of, or entitlement to retain, any such parachute payments, to the extent necessary to obtain such shareholder approval.

The following table shows potential payments to our NEOs under the executive severance arrangements and with respect to their outstanding equity incentive awards for various scenarios involving a termination of employment or a change in control, assuming such event occurred on March 25, 2022 and, where applicable, using a price of our Common Stock of \$29.18, which was the closing price of our Common Stock on Nasdaq on March 25, 2022:

CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Act and Item 402(u) of Regulation S-K, we are required to disclose the ratio of our CEO's annual total compensation to the annual total compensation of our other employees.

The annual total compensation for 2022 for our CEO was \$11,191,041, as reported in the Summary Compensation Table on page 55. The annual total compensation for 2022 for our median-compensated employee, identified as discussed below, was \$8,948, as calculated in accordance with the rules applicable to the Summary Compensation Table. Based on this information, for fiscal year 2022, the ratio of the annual total compensation of our CEO to the total annual compensation of our median-compensated employee was approximately 1,251 to 1.

Methodology, Assumptions and Estimates Used in Determining our Pay Ratio Disclosure

We chose December 31, 2021 as the date for establishing the employee population used in identifying the median-compensated employee and used fiscal year 2022 as the measurement period. We identified the median-compensated employee using the consistently applied compensation measure of annualized base pay in U.S. dollars for each employee employed as of December 31, 2021. We annualized the compensation measure for permanent employees who joined in 2021. We captured all full-time, part-time, seasonal and temporary employees, consisting of approximately 3,989 individuals.

The annual total compensation of the median-compensated employee and the annual total compensation of the CEO were calculated in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules based on our internal records and the methodology described above. Because the SEC rules for identifying the median-compensated employee and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of methodologies, apply certain exclusions, and make reasonable estimates and assumptions that reflect their employee populations and compensation practices, the pay ratio reported above should not be used as a basis for comparison between companies. In addition, we expect the Company's annually reported pay ratio may vary significantly year over year, given the size of the Company and the potential variability in Company employee compensation.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information with respect to holdings of our Common Stock by (i) shareholders who beneficially owned more than 5% of the outstanding shares of our Common Stock, and (ii) each of our directors, each of our NEOs and all directors and executive officers as a group as of June 9, 2022, unless otherwise indicated.

In computing the number of shares beneficially owned by an individual or entity and the percentage ownership of that person, shares of Common Stock subject to options, or other rights, held by such person that are currently exercisable or will become exercisable within 60 days of June 9, 2022, are considered outstanding, although these shares are not considered outstanding for purposes of computing the percentage ownership of any other person. Unless otherwise indicated, the address of each beneficial owner listed below is 955 Perimeter Road, Manchester, New Hampshire, 03103. We believe, based on information provided to us, that each of the shareholders listed below has sole voting and investment power with respect to the shares beneficially owned by the shareholder unless noted otherwise, subject to community property laws where applicable.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Policies and Procedures for Related Person Transactions

Our Board recognizes that transactions with related persons present a heightened risk of conflicts of interests and/or improper valuation (or the perception thereof). Our Board has adopted a written policy that provides that our Audit Committee will approve or ratify related person transactions required to be disclosed pursuant to Item 404 of Regulation S-K. Item 404 of Regulation S-K requires disclosure, subject to certain exceptions, of transactions in which we were or are to be a participant and the amount involved exceeds \$120,000 and in which any “related person” as defined under Item 404(a) of Regulation S-K had or will have a direct or indirect material interest. It is our policy that directors interested in a related person transaction will recuse themselves from any vote on a related person transaction in which they have an interest and that no director may participate in the approval of a related person transaction for which he or she is a “related person.” Each of the transactions described below was entered into prior the adoption of our related person transaction policy.

Related Person Transactions

In addition to the compensation arrangements, including employment, termination of employment and change in control arrangements, discussed in the section titled “Executive and Director Compensation,” the following is a description of each transaction or agreement since March 28, 2020 and each currently proposed transaction in which:

- we have been or are to be a participant;
- the amount involved exceeded or exceeds \$120,000; and
- any of our directors, executive officers or, to our knowledge, beneficial owners of more than 5% of our Common Stock, or any immediate family member of, or person sharing a household with, any of these individuals or entities, had or will have a direct or indirect material interest.

The following descriptions include summaries of certain provisions of our related party agreements and are qualified in their entirety by reference to the full text of any such agreement filed as an exhibit to our 2022 Annual Report.

Related Party Agreements

Wafer Foundry Agreement

In April 2013, Allegro MicroSystems, LLC, our wholly owned subsidiary (“AML”), entered into a semiconductor wafer foundry agreement with Polar Semiconductor, LLC (“PSL”) (as amended, the “Wafer Foundry Agreement”). Under the Wafer Foundry Agreement, PSL produces wafers for sale to AML in response to purchase orders AML submits on a weekly basis. Purchase orders under the Wafer Foundry Agreement are binding, provided that AML may cancel any such order subject to paying the applicable termination charges as set forth in the Wafer Foundry Agreement. Wafer and mask pricing is established by AML and PSL based on a six-month binding forecast finalized at the beginning of each new fiscal half-year period, subject to mutually agreed-upon pricing adjustments for increases or decreases in excess of a specified percentage of forecasted volumes. The Wafer Foundry Agreement also grants to PSL a non-exclusive, non-transferable, royalty-free license to use certain technology and intellectual property rights of AML to manufacture such semiconductor wafers in PSL’s Bloomington, Minnesota wafer fabrication facility.

The Wafer Foundry Agreement provides that PSL will reimburse AML for AML’s reasonable and verifiable costs incurred for product recalls and the sorting, inspection, replacement, repair, disposal and/or re-shipment of defective products resulting from the non-conformity of any wafer purchased from PSL, subject to an agreed-upon cap, and provided the amount of any such claim must exceed a specified de minimis amount.

As part of the transaction in which we divested a majority of our ownership interest in PSL to Sanken (the “PSL Divestiture”), AML and PSL amended the Wafer Foundry Agreement to, among other things, require AML to submit a rolling three-year forecast of its total production wafer requirements by process technology, to be updated on an annual basis. In the event AML does not purchase at least 90% of its annual forecasted volumes for a fiscal year, calculated on a per-quarter basis (the “Minimum Purchase Quantity”), AML will be required to pay to PSL, within 60 days following the end of the applicable fiscal year, a “shortfall amount” equal to the fixed direct cost per production wafer multiplied by the difference between the actual number of production wafers purchased by AML and the Minimum Purchase Quantity. The Wafer Foundry Agreement, as amended, has

an initial term of three years and may be renewed for additional one-year periods by mutual written agreement of the parties. During the fiscal year ended March 25, 2022, AML made aggregate purchases of \$55.3 million from PSL pursuant to the Wafer Foundry Agreement.

Technology Agreement

In April 2015, PSL and Sanken entered into a discrete technology development agreement (as amended, the “Discrete Technology Development Agreement”), pursuant to which the parties agreed upon the general terms under which they, from time to time, undertook certain activities (the “Discrete Development Activities”) to develop new technologies to be used by PSL to manufacture products for Sanken, as well as the ownership and use of such technologies following their development. In June 2018, we, PSL and Sanken entered into an amendment to the Discrete Technology Development Agreement pursuant to which the parties agreed to the assignment of all rights and obligations of PSL under such agreement to us and to certain amendments to the terms of such agreement. The Discrete Technology Development Agreement provided that the expenses for all Discrete Development Activities to be shared equally by us and Sanken on an annual basis (subject to any exceptions upon which the parties may agree from time to time). During the fiscal year ended March 26, 2021, we accrued \$0.6 million included in amounts due to related party under this agreement, which was paid in the first quarter of fiscal year 2022. The Discrete Technology Development Agreement terminated on March 31, 2021 in accordance with its terms. No further development activities or payments are expected under this agreement in the future.

Notes Receivable from PSL

On December 2, 2021, AML entered into a loan agreement with PSL wherein PSL provided an initial promissory note to AML for a principal amount of \$7.5 million (the “Initial PSL Loan”). The Initial PSL Loan will be repaid in equal installments, comprising of principal and interest accrued at 1.26% per annum, over a term of four years with payments due on the first day of each calendar year quarter (April 1st, July 1st, October 1st, and January 1st). In addition, PSL has the option of borrowing up to an additional \$7.5 million on or around January 1, 2023 under the same terms of the PSL Loan (the “Secondary PSL Loan” and, together with the Initial PSL Loan, the “PSL Promissory Notes”). PSL has informed the Company of its intent to elect its option of the Secondary PSL Loan during fiscal year 2023. The loan funds will be used by PSL to procure a deep ultraviolet scanner and other associated manufacturing tools necessary to increase wafer fabrication capacity in support of the Company’s increasing wafer demand. As of March 25, 2022, the outstanding balance of the PSL Promissory Notes was \$7.5 million. On April 1, 2022, PSL made a quarterly payment to AML of \$500,011, which included \$31,261 of interest income.

Distribution of Allegro Products in Japan

In July 2007, we entered into a distribution agreement with Sanken pursuant to which we appointed Sanken to act as the exclusive distributor of our products (subject to certain exceptions for any products we and Sanken agree to exclude) in Japan (the “Japan Distribution Agreement”). The price Sanken is required to pay for our products under the Japan Distribution Agreement is set as a percentage of the selling price of such products to Sanken’s end customers. In addition, Sanken is entitled to a commission equal to a certain percentage of its Net Sales (as defined in the Japan Distribution Agreement) of design-in products. The current term of the Japan Distribution Agreement will expire on March 31, 2025, provided that the agreement will automatically renew for successive three-year periods until either party gives notice of termination at least 12 months prior to the expiration of the then-current term. Each party also has the right to terminate the Japan Distribution Agreement immediately if the other party experiences certain events of bankruptcy or insolvency, or upon the expiration of the specified cure period in the event of a default by the other party. During the fiscal year ended March 25, 2022, Sanken purchased \$148.8 million of products from us under this agreement. In May 2022, the Company issued a letter of intent with Sanken to develop a plan to transition the supply chain and sales activity in Japan from Sanken to the Company. During the planning process, both parties will define the transition timeline and method for customer communication, supply chain transfer and sales coverage. The parties will also define a method to continue engagement with Sanken on the support of select customers.

Transactions Involving Sanken

The Company sells products to, and purchases in-process products from Sanken. Net sales of the Company’s products to Sanken totaled approximately \$148.8 million during the fiscal year ended March 25, 2022. Trade accounts receivables, net of allowances from Sanken totaled \$27.3 million as of March 25, 2022. Other accounts receivable from Sanken totaled approximately \$104,000 as of March 25, 2022.

Sublease Agreement

In 2014, our subsidiary, Allegro MicroSystems Business Development, Inc. (“Allegro Business Development”), entered into a sublease agreement with Sanken pursuant to which Allegro Business Development subleases certain office building space in

Japan from Sanken. The sublease automatically renews on an annual basis unless either party provides notice to the other party otherwise, and the agreement can be terminated by either party upon providing six months' notice. We made aggregate payments of approximately \$200,000 to Sanken under the sublease agreement during the fiscal year ended March 25, 2022.

Consulting Agreement

We entered into an executive advisor agreement (the "Consulting Agreement") with Reza Kazerounian on September 28, 2017, before Dr. Kazerounian became a member of our Board, pursuant to which we engaged Dr. Kazerounian to serve as an executive advisor to our Board and our CEO. On June 28, 2018, in connection with Dr. Kazerounian's appointment to our Board, we amended the Consulting Agreement, effective as of August 1, 2018. The Consulting Agreement, as amended, provides for the following current compensation for Dr. Kazerounian's services: (i) a monthly cash fee in the amount of \$18,750 and (ii) performance bonus eligibility, payable from time to time in an amount determined by the Board (in its sole discretion). The Consulting Agreement provides that if Dr. Kazerounian's consulting relationship is terminated by our Board, then he will be entitled to a termination payment in the amount of \$180,000. Our Board and Dr. Kazerounian each have the right to terminate the Consulting Agreement at any time. In addition, the Consulting Agreement contains customary confidentiality and non-disclosure restrictions, an assignment of inventions provision and employee non-solicitation and non-competition restrictions, each of which are effective during the term of the agreement and for five years after the Consulting Agreement is terminated (or such longer period as may be permitted under applicable law). During the fiscal year ended March 25, 2022, we paid aggregate fees of approximately \$260,000 to Dr. Kazerounian pursuant to the Consulting Agreement.

Non-GAAP Financial Measures

In addition to the measures presented in our consolidated financial statements, we regularly review other measures, defined as non-GAAP financial measures by the SEC, to evaluate our business, measure our performance, identify trends, prepare financial forecasts and make strategic decisions. The key measures we consider are non-GAAP Gross Profit, non-GAAP Gross Margin, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, non-GAAP Net Income and non-GAAP Basic and Diluted Earnings per Share (collectively, the "Non-GAAP Financial Measures"). These Non-GAAP Financial Measures provide supplemental information regarding our operating performance on a non-GAAP basis that excludes certain gains, losses and charges of a non-cash nature or that occur relatively infrequently and/or that management considers to be unrelated to our core operations. By presenting these Non-GAAP Financial Measures, we provide a basis for comparison of our business operations between periods by excluding items that we do not believe are indicative of our core operating performance, and we believe that investors' understanding of our performance is enhanced by our presenting these Non-GAAP Financial Measures, as they provide a reasonable basis for comparing our ongoing results of operations. Management believes that tracking and presenting these Non-GAAP Financial Measures provides management and the investment community with valuable insight into matters such as: our ongoing core operations, our ability to generate cash to service our debt and fund our operations; and the underlying business trends that are affecting our performance. These Non-GAAP Financial Measures are used by both management and our board of directors, together with the comparable GAAP information, in evaluating our current performance and planning our future business activities. In particular, management finds it useful to exclude non-cash charges in order to better correlate our operating activities with our ability to generate cash from operations and to exclude certain cash charges as a means of more accurately predicting our liquidity requirements. We believe that these Non-GAAP Financial Measures, when used in conjunction with our GAAP financial information, also allow investors to better evaluate our financial performance in comparison to other periods and to other companies in our industry.

These Non-GAAP Financial Measures have significant limitations as analytical tools. Some of these limitations are that:

- such measures do not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- such measures exclude certain costs which are important in analyzing our GAAP results;
- such measures do not reflect changes in, or cash requirements for, our working capital needs;
- such measures do not reflect the interest expense, or the cash requirements necessary to service interest or principal payments on our debt;
- such measures do not reflect our tax expense or the cash requirements to pay our taxes;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future;
- such measures do not reflect any cash requirements for such replacements; and
- other companies in our industry may calculate such measures differently than we do, thereby further limiting their usefulness as comparative measures.

The Non-GAAP Financial Measures are supplemental measures of our performance that are neither required by, nor presented in accordance with, GAAP. These Non-GAAP Financial Measures should not be considered as substitutes for GAAP financial measures such as gross profit, gross margin, net income or any other performance measures derived in accordance with GAAP. Also, in the future we may incur expenses or charges such as those being adjusted in the calculation of these Non-GAAP Financial Measures. Our presentation of these Non-GAAP Financial Measures should not be construed as an inference that future results will be unaffected by unusual or nonrecurring items.

Our prior disclosure referred to non-GAAP Gross Profit and non-GAAP Gross Margin as Adjusted Gross Profit and Adjusted Gross Margin, respectively. No changes have been made to how we calculate these measures.

Non-GAAP Gross Profit and Non-GAAP Gross Margin

We calculate non-GAAP Gross Profit and non-GAAP Gross Margin excluding the items below from cost of goods sold in applicable periods, and we calculate non-GAAP Gross Margin as non-GAAP Gross Profit divided by total net sales.

- Voxtel, Inc. (“Voxtel”) inventory impairment—Represents costs related to the discontinuation of one of our product lines manufactured by our subsidiary, Voxtel.
- Inventory cost amortization—Represents intercompany inventory transactions incurred from purchases made from PSL in fiscal year 2020. Such costs are one-time incurred expenses impacting our operating results during fiscal year 2021 following the PSL Divestiture. Such costs did not have a continuing impact on our operating results after our second fiscal quarter of fiscal year 2021.
- Foundry service payment—Represents foundry service payments incurred under our Price Support Agreement with PSL in respect to the guaranteed capacity at PSL to support our production forecast and are one-time costs incurred impacting our operating results during fiscal year 2021 following the PSL Divestiture. Such costs did have a continuing impact on our operating results after fiscal year 2021.
- Stock-based compensation—Represents non-cash expenses arising from the grant of stock-based awards.
- Our former manufacturing facility in Thailand (the “AMTC Facility”) consolidation one-time costs—Represents one-time costs incurred in connection with closing of the AMTC Facility and transitioning of test and assembly functions to the AMPI Facility announced in fiscal year 2020, consisting of: moving equipment between facilities, contract terminations and other non-recurring charges. The closure and transition of the AMTC Facility was substantially completed as of the end of March 2021, and we sold the AMTC Facility in August 2021. These costs are in addition to, and not duplicative of, the adjustments noted in note (*) below.
- Amortization of acquisition-related intangible assets—Represents non-cash expenses associated with the amortization of intangible assets in connection with the acquisition of Voxtel, which closed in August 2020.
- COVID-19 related expenses—Represents expenses attributable to the COVID-19 pandemic primarily related to increased purchases of masks, gloves and other protective materials, and overtime premium compensation paid for maintaining 24-hour service at our primary internal assembly and test facility based in Manila, Philippines (the “AMPI Facility”).

(*) Non-GAAP Gross Profit and the corresponding calculation of non-GAAP Gross Margin do not include adjustments consisting of:

- Additional AMTC-related costs—Represents costs relating to the closing of the AMTC Facility and the transitioning of test and assembly functions to the AMPI Facility in the Philippines announced in fiscal year 2020, consisting of the net savings resulted from or expected to result from the movement of work to the AMPI Facility, which facility had duplicative capacity based on the buildouts of the AMPI Facility in fiscal years 2019 and 2018. The elimination of these costs did not reduce our production capacity and, therefore, did not have direct effects on our ability to generate revenue. The closure and transition of the AMTC Facility was substantially completed as of the end of March 2021.
- Out-of-period adjustment for depreciation expense of giant magnetoresistance assets (“GMR assets”)—Represents a one-time depreciation expense related to the correction of an immaterial error, related to 2017, for certain manufacturing assets that have reached the end of their useful lives.

EBITDA, Adjusted EBITDA, and Adjusted EBITDA Margin

We calculate EBITDA as net income minus interest income (expense), tax provision (benefit), and depreciation and amortization expenses. We calculate Adjusted EBITDA as EBITDA excluding the same items excluded above and also excluding the items below in applicable periods. We calculate Adjusted EBITDA Margin as Adjusted EBITDA divided by total net sales.

- Non-core loss (gain) on sale of equipment—Represents non-core miscellaneous losses and gains on the sale of equipment.
- Miscellaneous legal judgment charge—Represents a one-time charge associated with the final payment of the previously accrued amount payable with respect to a value-added tax (VAT) dispute related to the construction of the AMPI Facility.
- Loss on debt extinguishment—Represents one-time costs representing deferred financing costs associated with the \$300.0 million of our term loan facility repaid during the fiscal year ended March 26, 2021.
- Foreign currency translation loss—Represents losses and gains resulting from the remeasurement and settlement of intercompany debt and operational transactions, as well as transactions with external customers or vendors denominated in currencies other than the functional currency of the legal entity in which the transaction is recorded.
- Income in earnings of equity investment—Represents our equity method investment in PSL.

- Unrealized losses (gains) on investments—Represents mark-to-market adjustments on equity investments with readily determinable fair values.
- Transaction fees—Represents transaction-related legal and consulting fees incurred primarily in connection with (i) the acquisition of Voxel in fiscal year 2020, (ii) one-time transaction-related legal and consulting fees in fiscal 2021, (iii) one-time transaction-related legal, consulting and registration fees related to a secondary offering on behalf of certain stockholders in fiscal 2022, and (iv) one-time transaction-related legal and consulting fees in fiscal 2022 not related to (iii) above.
- Severance—Represents severance costs associated with (i) labor savings initiatives to manage overall compensation expense as a result of the declining sales volume during the applicable period, including a voluntary separation incentive payment plan for employees near retirement and a reduction in force, (ii) the closing of the AMTC Facility and the transitioning of test and assembly functions to the AMPI Facility announced and initiated in fiscal year 2020, (iii) costs related to the discontinuation of one of our product lines manufactured by Voxel in fiscal year 2022, and (iv) nonrecurring separation costs related to the departure of an officer in fiscal year 2022.
- Impairment of long-lived assets—Represents impairment charge incurred in connection with the sale of the AMTC Facility.
- Change in fair value of contingent consideration—Represents the change in fair value of contingent consideration payable in connection with the acquisition of Voxel.

(**) Adjusted EBITDA does not include adjustments consisting of those set forth in note (*) to the calculation of non-GAAP Gross Profit, and the corresponding calculation of non-GAAP Gross Margin, above or:

- Labor savings—Represents salary and benefit costs related to employees whose positions were eliminated through voluntary separation programs or other reductions in force (not associated with the closure of the AMTC Facility or any other plant or facility) and a restructuring of overhead positions from high-cost to low-cost jurisdictions net of costs for newly hired employees in connection with such restructuring.

Non-GAAP Net Income and Non-GAAP Basic and Diluted Earnings Per Share

We calculate non-GAAP Profit before Tax as Income (Loss) before Income Taxes excluding the same items excluded above and also excluding the item below in applicable periods. We calculate non-GAAP Net Income as Net Income excluding the same items excluded above and also excluding the item below in applicable periods.

- Interest on repaid portion of term loan facility—Represents interest expense associated with the \$300.0 million of our term loan facility repaid during the period.
- Tax effect of adjustments to GAAP results—Represents the estimated income tax effect of the adjustments to non-GAAP Profit Before Tax described above and elimination of discrete tax adjustments.
